TEAMS OUT ON DRIVE

Canvass of City Started—
Many Expected to Pur-
chase Blocks of Tickets

The Band Benefit ticket drive
opened today.

Eight teams of men and women
early today started working toward
the goal of 1,500 people to attend the
musical entertainment at the audi-
torium Thursday night. Sale of 1,500
tickets means the successful financ-
ing of the Association of Commerce
campaign to put Bismarck in the
front rank in North Dakota in band
music.

The teams which left the Associ-
ation of Commerce offices at 9 o'clock
this morning to sell tickets were:
Men's teams, Chris Bertisch and
George Smith, H. J. Woodmansee
and Jos. Bleslow, E. H. Weber and
A. J. Holta, B. E. Jones and Harold
Griffith; women's team, Mrs. F. B.
Strauss and Mrs. Jos. Breslow, Mrs.
Alfred Zuger and Mrs. O. E. Olson,
Mrs. Edw. Bannan and Mrs. J. I. Set-
zer, Mrs. H. F. Keller and Mrs. Geo.
D. Mann.

The musical entertainment at the
auditorium will be given by the fa-
mous Hallowell company, with J. A.
Wentzell leading baritone. The com-
pany was obtained by the band com-
mittee of the Association of Com-
merce because of an open date, at a
very low fee. Press notices in other
cities record many successes for the
musical organization, which usually
has played at higher prices than are
asked for the concert in Bismarck.
Mr. Wentzell is said to be a singer of
unusual power.

Boy Scouts, under F. J. Grady,
have volunteered to act as ushers at
the concert.

DRY OFFICERS
DIE IN FIGHT
WITH RUNNERS

State and Federal Officer
Each Killed Near New
Orleans

New Orleans, April 17.—A deputy
sheriff and a prohibition officer
were shot and killed in a battle with
rum runners at the Lake Ecorese near
Violet, La., early today, according to
a report received at police headquar-
ters. The dead were named as Deputy
Sheriff Bolo Establin of St. Bernard
parish and federal prohibition
officer August Esteval. A body
was found at the end of the bridge.
It is reported that one of the run-
ners received a bullet wound. The
runners have not been captured.

N. P. PLANS USE
OF LIGNITE

Railroad Will Experiment
With Fuel on Engines

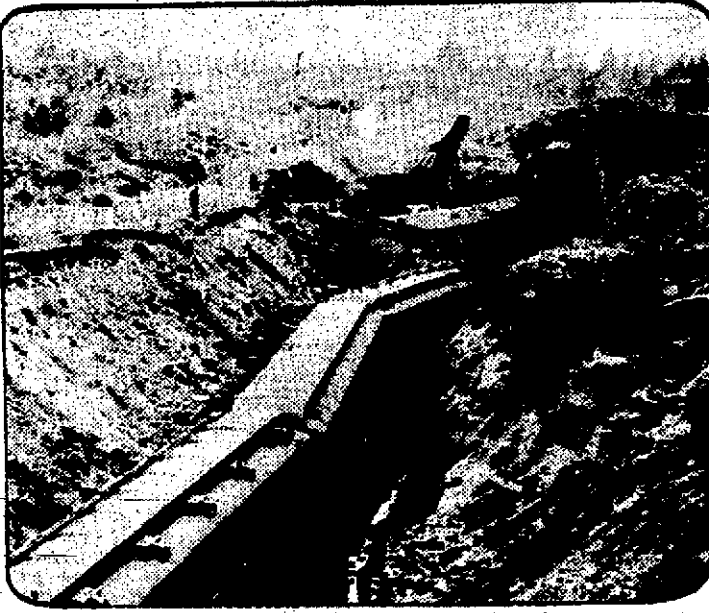

The Northern Pacific railroad,
which is to build a branch in Mont-
ana this year to open lignite coal
fields, will experiment with the
burning of lignite in locomotives,
according to announcement by H. E.
Stevens, chief engineer, in Minne-
apolis. It is planned to use lignite
coal on three divisions from Man-
dan to Missoula, Montana.

It is probable that extensive
changes in method of consuming
steam coal will be used and that the
experiment will not be underway for
many months.

each prisoner leased by this, Leon,
county to the Putnam Lumber com-
pany, he testified today before the
legislative committee investigating
prison conditions in his state as the
outgrowth of the death of Martin
Tabert of North Dakota.

Resuming its inquiry into the
death of Tabert the joint commit-
tee of the Florida legislature was to
call witnesses of the Putnam Lum-
ber company to obtain their version
of the affair.

Counsel for the lumber company
intimated yesterday that the charges
of brutality would be answered point
by point in the form of a general de-
nial.

TWO KILLED
IN EXPLOSION
ON G. N. TRAIN

Two Minot Trainmen Are Vic-
tims of Fatal Accident
and Third May Die

CROWN SHEET FAILED

Men Killed Blown Consider-
able Distance; Three
Train Men Escape

Minot, N. D., April 17.—Two men
were killed, one almost instantly and
the other dying en route to this
city and a third is in a hospital
here, seriously injured, as the re-
sult of the explosion of a boiler on a
Great Northern locomotive on a
west bound freight train at Roach, a
station 32 miles west of Minot.

The dead are:
Thor K. Thorsdahl, Minot, brake-
man.

Fred Remus, Minot, fireman.
C. C. Bonniwell of this city, engi-
neer, is badly scalded and attending
physicians this morning pronounced
his condition as fatal.

CAUSE GIVEN

The explosion of the boiler was
due to a crown sheet failure, caused
by low water, a statement authori-
zation this forenoon by Superintendent
R. A. McCandless of the Minot divi-
sion said.

The accident occurred at 5:10 p.
m., mountain time. The train was
traveling about 30 miles an hour
and contained 40 freight cars.

Automatic brake appliances stop-
ped the train within about three
car lengths.

The engine trucks and driver re-
mained intact on the track and the
boiler was hurled through the air in
a northwesterly direction about 600
feet, landing at right angles with
the railroad track. It smashed
through the telephone and telegraph
wires and disrupted communication
for several hours.

Killed instantly.
Thorsdahl, who was killed instantly, it
is believed, although his body was
not found for several minutes after
the accident. It had been blown
many feet to the rear of the north
side of the train and was obscured
in the field adjoining the right-of-
way. His left arm had been torn
from his body and was found be-
hind the tender of the engine.

NONPARTISAN
ORGAN PASSES
TO NEW FIRM

Sale to Company Headed by
J. P. Dotson to be An-
nounced Tomorrow

TO BE "INDEPENDENT"

Will Still Champion Farmers.
Says Announcement of
New Owner

Fargo, April 17.—Negotiations for
the sale of the Fargo Courier-News,
official organ of the Nonpartisan
League and morning paper here,
were completed here today and will
be formally announced in the news-
paper tomorrow. It became known
today. The purchaser is the Fargo
Tribune Company, controlled by J.
P. Dotson of Fargo, and Clarence W.
Brown of St. Paul. The newspaper
will be known as the Fargo Tribune.
Negotiations for the sale are said
to have been going forward for a
number of weeks.

Mr. Dotson, speaking for the new
owners, said today he was not in a
position to announce who will have
editorial charge of the paper, but it
is not likely that the present heads
of departments would be retained.
The new owner, it is understood, as-
sumes none of the obligations of the
old company except those respecting
the plant itself.

Transfer of Physical Property

The transfer is of the physical
property only most of the stock-
holders retaining their shares.

The new owners in a public
statement tomorrow will state that
the policies of the Fargo Tribune will
be "independent, owing no allegiance
to any political party or faction."

"This does not mean," the state-
ment will add, "that the farmers of
North Dakota will have lost a cham-
pion. The Tribune, under its new
management is just as keenly inter-
ested in the welfare and prosperity
of the farmers just as sincerely con-
cerned to see justice done as it ever
has been. It will not shun one iota
of its allegiance in watching out for
the real interests of the farmers."

Tired of Fighting?

The statement will conclude with
this paragraph:
"The new owners of the Tribune
believe, however, that the people of
North Dakota—all the people—are
weary of factional strife. They be-
lieve that the time is passed if
there was ever a time when there
was need of strife between city and
country."

Mr. Dotson is president of Walker
Brook, Inc., and former owner of the
Fargo Forum. The Forum was sold
to its present owner in 1917. He
will assume the duties of President
and Treasurer of the new company.
Mr. Brown, a former resident of this
city, will be secretary and business
manager. He formerly was adver-
tising manager of the Forum. The
other member of the incorporation
is Mrs. Susan Dotson.

RUHR HOLD IS
TIGHTENED; TO
EXTEND ACTION

Germans Expect Many More
Mines to be Seized in
Near Future

Essen, April 17.—The authorities
of occupation have been tightening
their hold upon the Ruhr noticeably
the last few days and the adoption
of even sharper measures is expec-
ted in German quarters as a result
of the Paris conference between rep-
resentatives of France and Belgium.
General De Goutte's order for the
delivery of coal in transport inside
the Ruhr has been applied with spe-
cial force lately and other steps have
been taken.

The occupation of the mines also
has been extended and the Germans
expect the present week will see the
taking over of a number of addi-
tional pits by the occupying troops.

U. S. DEMAND ON
ARMY COST IS
BEING OPPOSED

Deadlock Develops in Con-
ference in Paris to Settle
Rhine Army Bill

WILL MEET AGAIN

Allies Assert U. S. Demands
Would Cause Halt in Coal
Shipments to Italy

Paris, April 17.—An American de-
mand for absolute priority on Ger-
man reparations to pay the cost of
the American Army of Occupation on
the Rhine was continuing today to
deadlock the conference here over
the question. It was stated in well-
informed quarters. Elliott Waus-
worth, assistant secretary of the
treasury, representing the United
States, was awaiting another call for
a conference session from represen-
tatives of the allies who meanwhile
were awaiting instructions from
their governments.

Mr. Wausworth said there was no
warrant for the statement that the
conference had broken up.

The allies asserted that if abso-
lute priority was given the United
States the first effect would be to
block shipments of coal to Italy and
also to force the British government
to pay the cost of its army on the
Rhine or else withdraw it. This lat-
ter point is disputed in informed cir-
cles where it is asserted that the
British now are getting more than
their share of the cost of their
army through the recovery act which
straight receipts is yielding annu-
ally six million eight hundred thou-
sand pounds.

SEEK INFLUX

in an effort to bring farmers to
North Dakota to take up attractive
offerings yet this spring. Commis-
sioner J. H. Worst said today. P.
O. Williams, field worker, and Miss
Lila Dessem's special agent will
headquarter at Iowa Falls, Ia., and
visit numerous Iowa towns, dis-
playing North Dakota products. An
intensive drive will be kept up until
June, Mr. Worst said. Because of
the late spring, he said, it is still

Newspaper Received in His-
torical Society Here Tells
of Days When Adventurers
From All Parts of the
World Met in Little West-
ern North Dakota Town—
Roosevelt's First Call for
Public Meeting Published.

Full many a flower is born to blush
unseen
And waste its fragrance on the
desert air.
Full, many a man hath drawn an-
other queen.
And pulled a sweetened jack-pot
from the air.
(Bad Land's Cowboy.)

Life was free and easy back in
the '80's in the famous Bad Lands
cattle country. Copies of the Bad
Lands Cowboy, weekly newspaper es-
tablished January 29, 1885, at Medora
reveal a frontier community unlike
that of any other in North Dakota.
Photostat copies of the newspaper,
have been placed in the State His-
torical society library by the Roose-
velt Memorial association.

Advertisements bespeak the im-
portance of the cattle industry, with
a score of cattle owners' brand ad-
vertised in each issue. The "per-
sonals" reveal the community as a
meeting place for men from distant
cities and climes. Other items dis-
close the many problems met by the
cattle men in the early days.

The projects of the Marquis de
Morès, French nobleman, who planned
to build great packing houses
at Medora are touched upon. In the
same column, the departure of "Bob"
Roberts for his ancestral home in
Wales, the return of Levi Daffan-
bach to Germany to claim a large
fortune, and the return of numerous
other adventurers to Chicago and
New York are chronicled.

Theodore Roosevelt, then ranching
in the Bad Lands, found the "first
page" early in life, the Bad Land's
Cowboy reveals. His announcement
calling a meeting of cattlemen is
found in one issue and in other it
is reported that "Bad Man" Finnigan
is serving time in the Bismarck
penitentiary for stealing Theodore
Roosevelt's boat.

Medora Is Defended.

The conclusion of a social item
concerning a dance to the effect that
"nothing occurred to mar the pleas-
ure of the occasion, the hall type
used by the Golden Gun Army of
Dickinson in advertising "six-shoot-
ers" and the bid of the senate bar
that "the genial Jim is in constant
attendance" gives an impression
which the publisher of the Bad Land's
Cowboy, A. T. Packard, seemed an-
xious to correct in the same issues of
the paper when he wrote:

"Although Medora has never been
the scene, in spite of all reports to
the contrary, of a six-shooter row,
cowboys cannot help but join
with other cattle papers in urg-
ing the necessity of discarding the
six-shooters while in town. On the
range, one sometimes is needed, but
in town there never is any use for
them. To carry a six-shooter should
be a custom more honored in the
breach than observance. A deter-
mined and united movement is being
made among southern cattlemen to
stop the custom and northern men
are falling into line. The six-shoot-
er is the one thing that gives cow-
boys a bad name and we hope its
days are numbered."

The Bad Land's Cowboy was a con-
sistent booster for the community.
A careful enumeration, in 1885, re-
vealed 251 citizens in Medora, it said,
of which 145 were men, 39 women
and 66 children, and in addition
there were a number of floating popu-
lation of between 50 and 100 work-
ing men. Among the booster stories was
announcement that the Medora stage
had smashed all records between Me-
dora and Deadwood, making the time
in 32 hours and five minutes. "This
time has never before been dreamed of,"
the article added.

The copies of the paper were an-

WHO'S NEXT?
Running for Bonar Law's Job

EARL CURZON (ABOVE), THE
EARL OF DORBY (CENTER) AND
AUSTEN CHAMBERLAIN.

By Milton Bronner

NEA Secretary Staff Correspondent.
London, April 17.—With the going
becoming harder and harder for the
Bonar Law government, speculation is
rife as to who will be next in line
for the premiership.

Three men stand out: Earl Cur-
zon of Kedleston, the Earl of Derby
and Austen Chamberlain.

Stanley Baldwin, chancellor of the
exchequer and strongest member of
the present cabinet, seems to have
been dropped from consideration
since the defeat of the government
by a slim majority on Tuesday,
April 10. He was temporarily taking
leave of the premiership, Mr. Bal-
win had lost his voice, when the Labo-
rites forced the vote while the Tur-
lies were still struggling in from din-
ner. For his untactful handling of
the situation, Baldwin has come in
for considerable criticism.

Although the Laborites are riding
their high horse now, it is not
expected that they will be able to
get the ministry. Only in the last
analysis would Ramsay MacDonald be
asked to form a Labor government,
unless the old-property-owning
parties thought this the best way of
forcing an election and badly de-
feating Labor.

The chief handicaps which Lord
Curzon or Lord Derby would have to
face would be the growing prejudice
against having a peer as premier.
The likeliest figure on the horizon
is Chamberlain if he can be induced
to come back into the party and
unite all wings of the conservatives
under him. Even then there would
be a strong likelihood that he would
insist on having Lloyd George as his
chancellor of the exchequer and
Lord Birkenhead in another impor-
tant job.

If the Conservatives failed to form
a cabinet under these circumstances
there is a possibility that Lloyd
George or Asquith might be asked
to step in.

CANCEL BONDS
OF TREASURERS

Bonds of four school treasurers
have been cancelled because of al-
leged lack of depository bonds. Har-
old Hopton, manager of the State
Bonding Fund said today. They are:
John Hummel, treasurer, Klundt
school district, Logan county; Knute
Swenson, Lincoln Valley school dis-
trict, Fortuna; R. W. Rosseau, Home
School district No. 3, Crosby; J. O.
Graff, Hesper school district, Hesper.

State laws are strict in their re-
quirement of bonds to recover de-
posits of public funds, Mr. Hopton
said.

STATE BOARD'S
PROBE IS NOT
OVER, HOWEVER

Administration Body Says
Jamestown Hearing Showed
Steib Charges Unfounded

REASSURE RELATIVES

Will Keep Investigation Open
For Further Evidence,
Board Says

General accusations of abuse of
patients at the state insane hospi-
tal at Jamestown by attendants are
not sustained in the investigation
thus far made by the state board of
administration, the board said in a
statement issued today.

One charge of mistreatment which
was substantiated was followed by
immediate dismissal of attendants
responsible, the statement declares.

While asserting the investigation
is not closed as yet, and that any
evidence tending to show mistreat-
ment of patients is welcomed, the
board's statement reassures rela-
tives of unfortunates at the Jame-
stown state hospital.

Ex-service men confined in the
hospital suffering from war disabili-
ties are well treated and doing well,
and several soon will be discharged
in restored mental condition, the
statement asserts.

"The board wishes to assure the
police that while this particular
hearing is over," the statement says,
referring to the hearing conducted
at Jamestown, "investigation of
these general and serious charges
will be continued."

The probe was instigated by com-
plaints of Ed Steib of Cleveland, a
former employee, who asserted that
attendants at the hospital abused
patients, often beating them.

The statement of the board ad-
ministration on insane asylum probe
is as follows:

"The Board of Administration
met at the State Hospital for the
Insane at Jamestown April 11th and
12th, 1923, to consider the charges
of mismanagement outlined in a let-
ter appearing in the Courier-News
under date of March 25, 1923, over
the signature of one Ed. Steib of
Cleveland, North Dakota. The hear-
ing began at 7:30 p. m. Wednesday
and continued until 5:30 p. m.
Thursday.

In addition to these charges, the
Board also considered the statement
sent out in an Associated Press dis-
patch of April 11th, touching upon
the death of one Louis Wentz, of
Grand Forks, whose death took place
at the State Hospital in February.
Complete stenographic notes of the
testimony were taken and as soon
the transcript can be furnished
under date of March 25, 1923, over
the signature of one Ed. Steib of
Cleveland, North Dakota. The hear-
ing began at 7:30 p. m. Wednesday
and continued until 5:30 p. m.
Thursday.

Minot, N. D., April 17.—Two men were killed, one almost instantly and the other dying en route to this city and a third is in a hospital here, seriously injured, as the result of the explosion of a boiler on a Great Northern locomotive on a west bound freight train at Rouch, a siding 32 miles west of Minot.

The dead are: Thor K. Thorsdahl, Minot, brakeman. Fred Remus, Minot, fireman.

C. C. Bonniwell of this city, engineer, is badly scalded and attending physicians this morning pronounced his condition as fatal.

CAUSE GIVEN

The explosion of the boiler was due to a crown sheet failure, caused by low water, a statement authorized this forenoon by Superintendent R. A. McCandless of the Minot division said.

The accident occurred at 5:10 p. m. mountain time. The train was traveling about 30 miles an hour and contained 40 freight cars.

Automatic brake appliances, stopped the train within about three car lengths.

The engine trucks and driver, remained intact on the track and the boiler was hurled through the air in a northwesterly direction about 600 feet, landing at right angles with the railroad track. It smashed through the telephone and telegraph wires and disrupted communication for several hours.

Thorsdahl was killed instantly, it is believed, although his body was not found for several minutes after the accident. It had been blown many feet to the rear of the north side of the train and was obscured in the field adjoining the right-of-way. His left arm had been torn from his body and was found behind the tender of the engine.

Remus was found on the south side of the train, about three car lengths from where the boiler exploded. He died without regaining consciousness, according to members of the train crew who brought the injured man to Minot. Bonniwell was unconscious when members of the crew who were riding in the caboose reached him and was lying with his back against a telegraph pole. The only other three members of the train crew, W. W. Valentine and N. S. LaFarge and F. C. Papendyck, conductor, all of Minot, were in the caboose when the explosion occurred.

NONPARTISAN ORGAN PASSES TO NEW FIRM

Sale to Company Headed by J. P. Dotson to be Announced Tomorrow

TO BE "INDEPENDENT"

Will Still Champion Farmers. Says Announcement of New Owner

Fargo, April 17.—Negotiations for the sale of the Fargo Courier-News, official organ of the Nonpartisan league and morning paper here, were completed here today and will be formally announced in the newspaper tomorrow, it became known today. The purchaser is the Fargo Tribune Company, controlled by J. P. Dotson of Fargo, and Clarence W. Brown of St. Paul. The newspaper will be known as the Fargo Tribune.

Negotiations for the sale are said to have been going forward for a number of weeks.

Mr. Dotson, speaking for the new owners, said today he was not in a position to announce who will have editorial charge of the paper, but it is not likely that the present heads of departments would be retained. The new owner, it is understood, assumes none of the obligations of the old company except those respecting the plant itself.

Transfer of Physical Property The transfer is of the physical property only most of the stockholders retaining their shares.

The new owners in its public statement tomorrow will state that the policies of the Fargo Tribune will be "independent, owing no allegiance to any political party or faction." "This does not mean," the statement will add, "that the farmers of North Dakota will have lost a champion. The Tribune, under its new management is just as keenly interested in the welfare and prosperity of the farmers just as sincerely concerned to see justice done as it ever has been. It will not abate one iota of its diligence in watching out for the real interests of the farmers."

Tired of Fighting? The statement will conclude with this paragraph: "The new owners of The Tribune believe, however, that the people of North Dakota—all the people—are weary of factional strife. They believe that the time is passed if there was ever a time when there was need of strife between city and country."

Mr. Dotson is president of Walker Bros., Inc., and former owner of the Fargo Forum. The Forum was sold to its present owner in 1917. He will assume the duties of President and Treasurer of the new company. Mr. Brown, a former resident of this city, will be secretary and business manager. He formerly was advertising manager of the Forum. The other member of the incorporation is Mrs. Susan Dotson.

RUHR HOLD IS TIGHTENED; TO EXTEND ACTION

Germans Expect Many More Mines to Be Seized in Near Future

Essen, April 17.—The authorities of occupation have been tightening their hold upon the Ruhr noticeably the last few days and the adoption of even sharper measures is expected in German quarters as a result of the Paris conference between representatives of France and Belgium. General De Goutte's order for the delivery of coal in transport inside the Ruhr has been applied with special force lately and other steps have been taken.

The occupation of the mines also has been extended and the Germans expect the present week will see the taking over of a number of additional pits by the occupying troops.

U. S. DEMAND ON ARMY COST IS BEING OPPOSED

Deadlock Develops in Conference in Paris to Settle Rhine Army Bill

WILL MEET AGAIN

Allies Assert U. S. Demands Would Cause Halt in Coal Shipments to Italy

Paris, April 17.—An American demand for absolute priority on German reparations to pay the cost of the American Army of Occupation on the Rhine was continuing today to deadlock the conference here over this question, it was stated in well-informed quarters. Elliott Wagsworth, assistant secretary of the treasury, representing the United States, was awaiting another call for a conference session from representatives of the allies who meanwhile were awaiting instructions from their governments.

Mr. Wagsworth said there was no warrant for the statement that the conference had broken up.

The allies asserted that if absolute priority was given the United States the first effect would be to block shipments of coal to Italy and also to force the British government to pay the cost of its army on the Rhine or else withdraw it. This latter point is disputed in informed circles where it is asserted that the British now are getting more than the Germans and the cost of their army through the recovery act which straight receipts is yielding annually six million eight hundred thousand pounds.

SEEK INFLUX FROM IOWA

Immigration Department Sends Field Workers There

Field workers of the state immigration department will invade Iowa in an effort to bring farmers to North Dakota to take up attractive offerings yet this spring. Commissioner J. H. Worst said today, P. O. Williams, field worker, and Miss Liela Dessem, special field worker, will headquarters at Iowa Falls, Ia., and visit numerous Iowa towns, displaying North Dakota products. An intensive drive will be kept up until June, Mr. Worst said. Because of the late spring, he said, it is still possible for immigrants to take up many choice farms offered.

Citizenship schools being conducted in Bismarck at the Will school and the Wachter school were praised here today by Robert Carlson, U. S. Naturalization Examiner, who is conducting the examination of applicants for citizenship at the court-house today.

Mr. Carlson visited Will school last night, and put 25 aliens through a test, they coming from both the Will and Wachter night schools.

They showed the result of splendid instruction in the quiz, Mr. Carlson said. The government recognizes

WHO'S NEXT?

Running for Bonar Law's Job

Life was free and easy back in the '80's in the famous Bad Lands cattle country. Copies of the Bad Lands Cowboy, weekly newspaper established January 29, 1885, at Medora reveal a frontier community unlike that of any other in North Dakota. Photostat copies of the newspaper, which have been placed in the State Historical society library by the Roosevelt Memorial association.

Advertisements bespeak the importance of the cattle industry, with a score of cattle owners' brand advertised in each issue. The "personals" reveal the community as a meeting place for men from distant cities and climes. Other items disclose the many problems met by the cattle men in the early days.

The projects of the Marquis de Mores, French nobleman, who planned to build great packing houses at Medora are touched upon. In the same column, the departure of "Bob" Roberts for his ancestral home in Wales, the return of Levi Doffenbach to Germany to claim a large fortune, and the return of numerous other adventures to Chicago and New York are chronicled.

Theodore Roosevelt, then ranching in the Bad Lands, found the "first page" early in life, the Bad Lands Cowboy reveals. His announcement calling a meeting of cattlemen is found in one issue and in other it is reported that "Bad Man" Emmett is serving time in the Bismarck penitentiary for stealing Theodore Roosevelt's boat.

Medora Is Defended.

The conclusion of a special item concerning a dance to the effect that "nothing occurred to mar the pleasure of the occasion," the bold type by the Golden Gun Armory of Dickinson in advertising "six-shooters" and the bid of the senate bar that "the genial Jim is in constant attendance" gives an impression which the publisher of the Bad Lands Cowboy, A. T. Packard, seemed anxious to correct in the same issues of the paper when he wrote:

"Although Medora has never been the scene, in spite of all reports to the contrary, of a six-shooter row among cowboys, we cannot help but join with other cattle papers in urging the necessity of discarding six-shooters while in town. On the range, one sometimes is needed, but in town there never is any use for them. To carry a six-shooter should be a custom more honored in the breach than observance." A determined and united movement is being made among southern cattle men to stop the custom, and northern men are falling into line. The six-shooter is the one thing that gives cowboys a bad name and we hope its days are numbered."

The Bad Lands Cowboy was a consistent booster for the community. A careful enumeration, in 1885, revealed 251 citizens in Medora, it said, of which 145 were men, 39 women and 66 children, and in addition there was recorded a floating population of between 50 and 100 working men. Among the booster stories was announcement that the Medora stage had smashed all records between Medora and Deadwood, making the time in 32 hours and five minutes. "This time has never before been dreamed of," the article added.

The copies of the paper were enclosed in a box and sent to the editor.

CANCEL BONDS OF TREASURERS

Bonds of four school treasurers have been cancelled because of alleged lack of depository bonds. Harold Hopton, manager of the State Bonding Fund said today. They are: John Hummel, treasurer, Kland school district, Logan county; Knute Swenson, Lincoln valley school district, Fortuna; R. W. Roseau, Home School district No. 3, Crosby; J. O. Graff, Hesper school district, Hesper.

State laws are strict in their requirement of bonds to recover deposits of public funds, Mr. Hopton said.

STATE BOARD'S PROBE IS NOT OVER, HOWEVER

Administration Body Says Jamestown Hearing Showed Steib Charges Unfounded

REASSURE RELATIVES

Will Keep Investigation Open For Further Evidence, Board Says

General accusations of abuse of patients at the state insane hospital at Jamestown by attendants are not sustained in the investigation thus far made by the state board of administration, the board said in a statement issued today.

One charge of mistreatment which was substantiated was followed by immediate dismissal of attendants responsible, the statement declares.

While asserting the investigation is not closed as yet, and that any evidence tending to show mistreatment of patients is welcomed, the board's statement reassures relatives of unfortunates at the Jamestown state hospital.

Ex-service men confined in the hospital suffering from war disabilities are well treated and doing well, and several soon will be discharged in restored mental condition, the statement asserts.

"The board wishes to assure the police that while this particular hearing is over," the statement says, referring to the hearing conducted at Jamestown, "investigation of these general and serious charges will be continued."

The probe was instigated by complaints of Ed Steib of Cleveland, a former employee, who asserted that attendants at the hospital abused patients, often beating them.

The statement of the board administration on insane asylum probe is as follows:

"The Board of Administration met at the State Hospital for the Insane at Jamestown April 11th and 12th, 1923, to consider the charges of mismanagement outlined in a letter appearing in the Courier-News under date of March 25, 1923, over the signature of Ed. Steib of Cleveland, North Dakota. The hearing began at 7:30 p. m. Wednesday and continued until 5:30 p. m. Thursday.

"In addition to these charges, the Board also considered the statement sent out in an Associated Press dispatch of April 11th, touching upon the death of one Louis Wentz, of Grand Forks, whose death took place at the State Hospital in February. Complete stenographic notes of the testimony were taken and as soon as the transcript can be furnished will be open to inspection at the offices of the Board of Administration in Bismarck, as well as at the State Hospital.

"Besides Mr. Steib, the Board listened to testimony from several of the attendants, including the supervisor of attendants, and also from patients, two of whom are about to be discharged.

He also acted as chief clerk of the 1921 North Dakota legislative session.

MORE AUTOS NEEDED BY LAHR SALES, CO.

W. E. Lahr Leaves This Evening for Factory to Speed up Deliveries

W. E. Lahr, head of the Lahr Motor Sales Co., is leaving this evening for Toledo, Ohio, to visit the big factory plant. Mr. Lahr is after more automobiles. "By keeping the wheels hot," said Mr. Lahr, "we have been able to keep Overlands and Willys Knights coming fast enough to meet the demand of the last few days. However, with the appearance of spring like weather, our shipping schedule has been about like the proverbial snowball, although we never had as many automobiles coming to us as we have during the last six days."

After Mr. Lahr has gotten enough of roads and Willys Knights start of this way, he will spend a couple of weeks in the east taking a much needed rest.

PICKFORD FILM COMING HERE

Latest Production "Tess of the Storm Country," to Be Shown

St. Joseph has been shown such a marked interest in a forthcoming play as that evinced by local photographers since the first announcement of the coming of Miss Pickford in her own and a new version of "Tess of the Storm Country," a United Artists release, which will be the attraction at the Eltinge theatre Tuesday, Wednesday and Thursday. It is perhaps the combination of a favorite star in a favorite play which makes this screen event so notable, but it is also certain the fact that Miss Pickford has greatly delighted on her triumphant histrionic efforts of eight years ago has had a marked effect in intensifying the public interest.

It is well known that this celebrated star has gone to a great expense in reproducing "Tess of the Storm Country," because of her ambition to improve upon it to such an extent as to insure its popularity in posterity. Critics throughout the country agree she has succeeded in her purpose, and it is freely predicted that this great film drama will live as long as there is such a thing as a motion picture screen.

It is said Miss Pickford reaches the zenith of her dramatic power in her interpretation of the character of Tess, sympathetically winning and admirable heroine, and many authorities predict it truly marvellous as an example of her incomparable ability to make people laugh one minute and cry the next. Miss Pickford's wonderful ability to turn the gauntlet of human emotions with so much natural realism is the secret of her unprecedented success as an exponent of the cinema art.

In this special photoplay she is surrounded by a supporting cast of exceptional brilliance. Lloyd Hughes in the leading male role, which was originally created by the late Hal-

WOMAN HELD FOR MURDER AT GRANVILLE

Divorced Husband Died of Poisoning, Coroner's Jury Finds

Granville, N. D., April 17.—Mrs. Edna Smith, aged 30 of this city, was arrested here this forenoon on a warrant charging murder in the first degree as the result of the death of her divorced husband, John Henry Smith, here a week ago yesterday. Mrs. Smith's arrest followed the verdict of a coroner's jury here this afternoon which completed investigation into the death of Smith, who was found dead April 9. Smith's death resulted "from poison administered by hands unknown to the jury," the verdict read.

The woman was admitted to bail of \$2,000 pending the preliminary hearing which is scheduled to be held here on April 24 before Justice of the Peace S. T. Brady. She was making an effort to secure the bail money this afternoon.

Libby of the department of American History in the last issue of the Quarterly Journal of the University of North Dakota. The reviewer selects certain chapters which he declares are particularly classic bits not only of literature but portrayals of western life. The following comment shows this: "The chapter in which there is described a typical blizzard on the great prairies is a classic of its kind. Mr. Crawford's western readers will recognize in his account of the unrelenting qualities of his saddle horse, a faithful portrait of their own favorite riding pony, that served them so well in the early days of pioneer ranching. His description of lynch law as practiced on the frontier reminds one of a similar sketch in Stewart Edward White's 'Arizona Nights.'"

RECORD DANCERS DRIVEN FROM CITY, CONTINUE IN MOVING VAN

RECORD MADE
New York, April 17.—Sarah Sheppard and Theodore Gill who began dancing at 7:30 o'clock Saturday night and toddled through three states, this afternoon passed the world's record of 66 hours and 6 minutes set this morning by Miss Madalynne Gottschick of Cleveland and were still going strong, according to telephone advice from East Port Chester, Conn.

New York, April 17.—Barré in New York and New Jersey by police the marathon dancers, who started out at 7:30 o'clock Saturday night to smash world's records for endurance, transferred their activities to Connecticut today without missing a step.

Reports from the Cynon Athletic Club at Port Chester, Conn., said that three of the original four couples were still going strong. The dancers started in an up-town Broadway hall and moved to Fort Lee, N. J., in a moving van when the police interfered. When the officials ordered them to move they went back to New York in a van, dancing in "dingy flat somewhere in Harlem."

Fearing that they would be found they were transferred in a van again to the Connecticut town. All of the dancers were said to be in fair condition. Chicken soup has constituted their main diet.

Undeterred by reports of two time records made by dancers elsewhere the tri-state riders said they would dance until they dropped to the floor. The marathon record has been broken 10 times in the last six weeks, records compiled here show.

POLARINE is created to specifications—to the mechanical specifications of your car, as well as to chemical formula.

Chemical and engineering experts of the Standard Oil Company (Indiana) considered the bore and stroke of your engine; number and fit of the piston rings; piston design; bearing design; oiling and cooling systems of your engine, before they indicated to you in the Chart, just the grade of Polarine that is right for your car.

Polarine—thus scientifically produced—costs little if any, more by the gallon, than inferior oils; and it costs far less by the year, because it stands up under use.

Polarine

THE PERFECT MOTOR OIL

Made in Five Grades

In every case, the body or viscosity of Polarine is so constant, that a relatively light grade of Polarine may be used always. This means minimum resistance to motion, a cool motor and maximum power.

Polarine spreads quickly over the bearing surfaces. It leaves no dry spots. Hence cylinders and bearings invariably last longer when the specified grade of Polarine is used.

Even Polarine cannot replace worn metal. Take a stitch in time and change your motor oil every 500 miles—that's true economy. Polarine is made from crude petroleum especially selected for its high percentage of lubricating value. Polarine is based upon day by day experience in the laboratory and on the road. Year by year Polarine conforms to variations in engine design, but the high quality of Polarine is maintained always.

St. Alexius Hospital

Mrs. Christoph Kramer of Wishek. Mrs. Fred Scallon of Wing, H. M. Berg of city, Alfred Spreckler of New Leipzig, Emanuel Brown of city, and Mrs. Thomas Titzmaurice of Mohall have entered the St. Alexius hospital for treatment. Jacob Fischer of Strasburg, Mrs. M. F. McCarty of city, H. F. Brame of Dawson, and Mrs. Catherine McDonald of city have been discharged from the hospital.

Announce Birth

Mr. and Mrs. J. L. Haas of 421 Ninth Street announce the birth of an infant daughter yesterday at the St. Alexius hospital.

USE OF BOWS.

You can scarcely go wrong with your summer frock if you see that it is equipped with a generous butterfly bow which may be placed in the back, directly in front, or on either side.

EGYPTIAN INFLUENCE.

The newest hand bags have sphynx heads, pyramids, lotus flowers and palm trees wrought in colorful beads. For the most part they are flat, pouch-shaped affairs or envelope shaped.

NOVELTY CUFFS.

Novelty cuffs are seen on many of the street gloves for spring. They are usually developed in two tones, gray and tan, black and white or brown and tan.

Show your civic pride. Get behind Bismarck City Band Benefit Thursday evening at Auditorium.

TASSELED FROCK.

A pink satin evening frock on very straight, classic lines is trimmed only with a large jeweled tassel.

BUCKLES.

Buckles continue to be an important factor in spring footwear. Frequently they cost much more than the pumps and some are so large they almost conceal the shoe.

COLORS BANDS.

A band of contrasting color is an approved way of finishing the hemline of the summer frock. Twills

and reps of navy blue frequently have a narrow band of red or Chinese blue.

PARASOLS.

Parasols are lengthening out for the summer and have long, slender handles. The more substantial tops are made of printed linen or pongee, prints, cotton and silk, and batiked fabrics.

RELIEVES BACKACHE.

"Have had kidney trouble and backache for many years and I tried several doctors but got only temporary relief. A friend advised me to

try Foley Kidney Pills, and before I used two boxes I was entirely well," writes A. C. Perkins, Summer Shade, Ky. Kidney and bladder trouble requires prompt treatment. Foley Kidney Pills give quick relief. Refuse substitutes. Insist upon Foley's.

Support boys' and girls' band by turning out to city band benefit Thursday evening April 19th at Auditorium.

For Sale—Studebaker Six. Excellent condition. Cord Tires. \$450.00. Phone 267. After 6 p. m., 496.

For Raw Sore Throat

At the first sign of a raw, sore throat rub on a little Musterole with your fingers. It goes right to the spot with a gentle circle, loosens congestion, draws out soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It has all the strength of the old-fashioned mustard plaster without the blister.

Nothing like Musterole for croupy children. Keep it handy for instant use. 35 and 65 cents in jars and tubes; hospital size, \$3.

SHORTAGE IN LABOR SEEN

Chairman of U. S. Steel Tells of Situation

THINKS GARY RIGHT
Washington, April 17.—President Harding today said at the White House today to believe that E. H. Gary, president of the board of the United States Steel Corporation was quite correct in his statement made to corporation stockholders yesterday that a serious labor shortage was threatened through the operation of the restrictive immigration law.

Hoboken, N. J., April 17.—The barrier to aliens erected by the restrictive immigration law of the United States threatens to create a serious labor shortage and is "one of the worst things this country ever did for itself," E. H. Gary, chairman of the board of the U. S. Steel Corporation told stockholders at their annual meeting today.

Mr. Gary confined his remarks to affairs of the corporation, telling those who inquired concerning his recent tour to Europe that he would cover the subject at the annual meeting of the American Iron and Steel Institute in New York next month.

He reported that gross earnings of the U. S. Steel Corporation in 1922 were \$1,022,697,000, an increase of \$10,000,000 over 1921; that the total undivided surplus last December 31, exclusive of profits of subsidiary companies, from sale of possessions to other subsidiaries was \$449,000,000 and that at the close of 1922 it had 214,931 employees who earned an aggregate of \$322,678,130 during the year—an average of \$1501 each.

livened by interesting "personals" among which was: "Alaska John broke out in a fresh place yesterday and the following sign now adorns the front of the Oyster Grotto:—Fresh oysters, blood raw, dead or alive." Another read: "Bud Roberts, while in Bismarck, gave away the town pet, Nellie, a cinnamon bear."

"There is liable to be an uprising of the citizens when the time comes for her shipment."

Roosevelt's Call.
The statement of the former President Theodore Roosevelt, in calling a meeting of cattlemen, emphasizes modesty upon the part of the young rancher, who twice impressed upon readers that he was acting "by request."

The notice, as printed in the Bad Lands Cowboy, Dec. 18, 1884, follows:
"At the request of Messrs. Huidekoper, Wadsworth, Eaton, Truescott, the stockmen having ranges on the Little Missouri and Beaver Creek, a meeting of stockmen of this river and its tributaries is hereby called to be held in Roberts hall, Medora, 11 a. m., Friday, Dec. 19th. The object is to bring together the cattlemen of this vicinity in order that they may discuss certain questions of immediate and pressing interest to them and in order that they may take measures to provide for a more efficient organization of the stockmen of the vicinity in the future, both so that they may be able to act more as a unit than has been the case in the past, and so that they can combine to project their interests against unjust interference from the outside."

All gentlemen interested in stock raising, both those on the Little Missouri and those on the neighboring waters, are urgently requested to attend.

(By Request).
THEODORE ROOSEVELT.
The cattle industry overshadowed all else, and ranchman in the '80's did not go in for dairying, the newspaper reveals. It announced that although "we are in the midst of a cattle country, we are entirely without milk, except what is shipped in from the outside" and it declares that "a fortune awaits a practical man who will go into the dairy business here."

HELD FOR ASSAULT.
Williston, N. D., April 17.—Archie Goldsmith, 18 residing in Cow Creek township, this county, is in the county jail here charged with being the assailant of Miss Bernice Clay, a teacher in that community. The defendant there has been unable to furnish \$2,000 bonds, required for his release. The specific charge for which he must stand trial in district court is assault.

WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Bismarck resident's example.

Mrs. H. Steinmetz, 113 Second St., says: "I used a couple of boxes of Doan's Kidney Pills from the Lenhart Drug Co., and they cured me of a severe dull aching through the small of my back. I had been annoyed for some time with a lameness and soreness through my loins and a tired, languid feeling and got no relief until I used Doan's Kidney Pills. I haven't had backache and my kidneys have been healthy since." Nine years later, Mrs. Steinmetz said: "The cure Doan's Kidney Pills made for me is permanent. I always recommend Doan's to my friends when I hear them complaining of kidney trouble." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Steinmetz had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

STATE BOARD'S PROBE IS NOT OVER, HOWEVER

(Continued from Page 1)

Courier-News containing the outline of charges was written for him by John Andrews, editor of the aforesaid paper. His charge—that patients were abused by attendants was substantiated in one case, that occurring on December 31, 1922, when a patient was roughly handled by three attendants. The testimony showed that the rule of the institution against striking or using physical violence on patients, except when clearly in self-defense, was immediately invoked and on the recommendation of Mr. Tom Morton, supervisor of male attendants, all three attendants were immediately discharged by Superintendent A. W. Guest. This highly important fact was not stated in the letter of charges written for Steib by Editor John Andrews of the Courier-News, and the unjust inference was drawn that nothing was being done by the authorities to prevent attendants from abusing patients. The written rules of the institution are quite specific and all the evidence submitted points to the conclusion that the management is prompt to enforce the rule governing the use of physical violence. Positive testimony from patients who have recovered from their mental malady are about to be discharged was heard to the effect that they had been well treated by attendants and had seen no acts of cruelty against patients. The Board is satisfied that Steib's general accusations of abuse of patients by attendants were not substantiated by the evidence submitted.

"In the case of Louis Wentz, of Grand Forks, the testimony showed that this man was confined to his bed for a long time previous to his death in a very wretched condition resulting from pulmonary tuberculosis. The undertaker, Mr. Smith, who prepared the body for shipment, testified that he noticed bruises on the head and the attendants testified that this resulted from his falling out of bed when in a delirious condition. Further investigation of this case will be made."

"The inference given in Mr. Steib's interview to the Courier-News of April 14th that doctors came to wards only on the death of patients the Board feels is unjust and directly contradicts Mr. Steib's own testimony given before the Board at the hearing stated that a doctor called daily at the wards to look after the medical needs of the patients."

"The charge made by Steib that patients are not properly fed, nor furnished with sufficient tobacco, at the institution was not corroborated by any of the witnesses examined. His charge that patients were sent outside in sub-zero weather to work without sufficient clothing also was not substantiated by other testimony. One of the specific written rules of the institution states that patients must be properly clothed before being taken outside. Mr. Steib admitted that the institution had a sufficient supply of clothing on hand. It would seem to the Board, therefore, that if Mr. Steib took patients outside with insufficient clothing at least a share of the responsibility for such neglect rests upon himself."

Ex-service Men
"During the investigation and the visit of the members of the Board at the institution, J. A. Kitchen, ex-officio member of the State Board of Administration, gave special attention to the care and conditions surrounding the ex-service patients at the State Hospital. There are twenty-two service men under federal aid and nine other North Dakota men under hospital care. The nine North Dakota men not under federal aid may be accepted for that aid soon. All these thirty-one men are busily engaged in occupational therapy and vocational training. Much progress is made towards mental recovery, as one is now out on parole and three are adjudged restored sufficiently for release soon. Music, including piano, phonographs, etc. is provided. Three regular meals, with butter and wholesome food are served with occasional afternoon luncheons. Entertainments are provided at regular intervals by a committee of Jamestown women who are entitled to a great deal of credit for their unselfish efforts to make life more pleasant for the disabled soldiers. Two trained teachers are provided by the Federal Government besides the regular attendants; and other help. It is a source of pleasure to the Legion men to know their unfortunate comrades are receiving every possible consideration at the hospital."

"The Board wishes to call public attention to the provision of the law as found in Sec. 269, Compiled laws of North Dakota, 1913, which places the absolute responsibility for the appointment and dismissal of all employees upon the Superintendent. The superintendent warden or other chief executive officer of the several institutions, shall appoint all assistants, guards and employees required in the management of the institution, the number of whom shall be determined by the board; it is hereby declared to be a misdemeanor for the members of the

The said chief executive officer may at his pleasure discharge any person employed, but shall keep in the record of employees the date of such discharge, and shall place opposite his name the reason therefor."

Reassure Relatives
"The Board wishes to assure the public that while this particular hearing is over, investigation of these general and serious charges will be continued. Further testimony and corroboration of testimony already given will be sought. Nothing in the nature of a 'white-wash' is in the mind of any member of the Board. The Board feels, however, that the friends and relatives of the unfortunates at the State Hospital are entitled to the assurance that as far as the investigation has gone we are unable to agree with the complaining witness, Steib, in his charges. If further investigation produces evidence of corroboration of his charges, we shall certainly give it to the public. We have no one to protect except the interests of the 1270 patients and to see that ordinary fairness and justice is done to those entrusted with their care."

Killedeer, April 17. At the bond election for the school district held last Friday there were 142 votes cast. For the increase in the bonded indebtedness there were 100 votes cast and against it 38; for the bond issue there were 112 votes cast and 28

against it. Some of the ballots were spotted in voting on both questions.

I. O. O. F. Officers To Be Installed At Encampment
Minot, N. D., April 17.—Newly elected officers of the state I. O. O. F. lodge will be installed when the I. O. O. F. grand encampment is held in Minot on June 5, 6 and 7. A large attendance of delegates is anticipated at the Minot convention.

Harry W. Gill of Portal, N. D., has been elected grand master of the state lodge. He succeeds Grand Master W. S. Wickersham of Ellendale. For the 29th consecutive year, Don McDonald of Grand Forks is the grand secretary. He has served in that capacity since 1895. Other officers are: A. A. Disdale of Dickinson, deputy grand master; J. A. Pitzer, of Wilton, grand warden; Ole Serungard of Devils Lake, grand treasurer; W. S. Wickersham of Ellendale, grand representative for two years to the national organization meeting.

WHAT THIS BUFFALO PHYSICIAN HAS DONE FOR HUMANITY
The picture which appears here of Dr. Pierce of Buffalo, N. Y., was taken in 1910. As a young man—Dr. Pierce practiced medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood. This strengthbuilder is made from a formula which Dr. Pierce found most effective in diseases of the blood. It contains no alcohol and is an extract of native roots with the ingredients plainly stated on the wrapper. Good red blood, vim, vigor and vitality are sure to follow if you take this Alleviating Extract. Dr. Pierce's Golden Medical Discovery cures away pimples and annoying eruptions and tends to keep the complexion fresh and clear. This Discovery corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and purifies the blood. Write Dr. Pierce's Invalids Hotel in Buffalo, N. Y., and receive confidential medical advice without charge. All druggists sell Discovery, tablets or liquid. Send 10c for trial pkg.

STATE BOARD'S PROBE IS NOT OVER, HOWEVER

(Continued from Page 1)

Courier-News containing the outline of charges was written for him by John Andrews, editor of the aforesaid paper. His charge that patients were abused by attendants was substantiated in one case, that occurring on December 31, 1922, when a patient was roughly handled by three attendants. The testimony showed that the rule of the institution against striking or using physical violence on patients, except when clearly in self-defense, was immediately invoked and on the recommendation of Mr. Tom Morton, supervisor of male attendants, all three attendants were immediately discharged by Superintendent A. W. Guest. This highly important fact was not stated in the letter of charges written for Steib by Editor John Andrews of the Courier-News, and the unjust inference was drawn that nothing was being done by the authorities to prevent attendants from abusing patients. The written rules of the institution are quite specific and all the evidence submitted points to the conclusion that the management is prompt to enforce the rule governing the use of physical violence. Positive testimony from patients who have recovered from their mental malady and are about to be discharged was heard to the effect that they had been well treated by attendants and had seen no acts of cruelty against patients. The Board is satisfied that Steib's general accusations of abuse of patients by attendants were not substantiated by the evidence submitted.

"In the case of Louis Wentz, of Grand Forks, the testimony showed that this man was confined to his bed for a long time previous to his death in a very weakness condition resulting from pulmonary tuberculosis. The undertaker, Mr. Smith, who prepared the body for shipment, testified that he noticed bruises on the head and the attendants testified that this resulted from his falling out of bed when in a delirious condition. Further investigation of this case will be made.

"The inference given in Mr. Steib's interview to the Courier-News of April 14th that doctors came to wards only on the death of patients the Board feels is unjust and directly contradicts. Mr. Steib's own testimony given before the Board at the hearing stated that a doctor called daily at the wards to look after the medical needs of the patients.

"The charge made by Steib that patients are not properly fed, nor furnished with sufficient tobacco, at the institution was not corroborated by any of the witnesses examined. His charge that patients were sent outside in sub-zero weather to work without sufficient clothing also was not substantiated by other testimony. One of the specific written rules of the institution states that patients must be properly clothed before being taken outside. Mr. Steib admitted that the institution had a sufficient supply of clothing on hand. It would seem to the Board, therefore, that if Mr. Steib took patients outside with insufficient clothing at least a share of the responsibility for such neglect rests upon himself.

ty-two service men under federal aid and nine other North Dakota men under hospital care. The nine North Dakota men not under federal aid may be accepted for that aid soon. All these thirty-one men are busily engaged in occupational therapy and vocational training. Much progress is made towards mental recovery, as one is now out on parole and three are adjudged restored sufficiently for release soon. Music, including piano, phonographs, etc. is provided. Three regular meals, with butter and wholesome food are served with occasional afternoon luncheons. Entertainments are provided at regular intervals by a committee of Jamestown women who are entitled to a great deal of credit for their unselfish efforts to make life more pleasant for the disabled soldiers.

Two trained teachers are provided by the Federal Government besides the regular attendants, and other help. It is a source of pleasure to the Legion men to know their unfortunate comrades are receiving every possible consideration at the hospital.

"The Board wishes to call public attention to the provision of the law as found in Sec. 269, Compiled laws of North Dakota, 1913, which places the absolute responsibility for the appointment and dismissal of all employees upon the Superintendent. The superintendent warden or other chief executive officer of the several institutions, shall appoint all assistants, guards and employees required in the management of the institution, the number of whom shall be determined by the board. It is hereby declared to be a misdemeanor for the members of the

board, or any officer thereof, to exert any influence, by solicitation or otherwise, on the managing officer of an institution in the selection of any employee or assistant. The said chief executive officer may at his pleasure discharge any person employed, but shall keep in the record of employees the date of such discharge, and shall place opposite his name the reason therefor."

Reassure Relatives
"The Board wishes to assure the public that while this particular hearing is over, investigation of these general and serious charges will be continued. Further testimony and corroboration of testimony already given will be sought. Nothing in the nature of a 'white-wash' is in the mind of any member of the Board. The Board feels, however, that the friends and relatives of the unfortunates at the State Hospital are entitled to the assurance that as far as the investigation has gone we are unable to agree with the complaining witness, Steib, in his charges. If further investigation produces evidence of corroboration of his charges, we shall certainly give it to the public. We have no one to protect except the interests of the 1270 patients—and to see that ordinary fairness and justice is done to those entrusted with their care."

I. O. O. F. Officers To Be Installed At Encampment

Minot, N. D., April 17.—Newly elected officers of the state I. O. O. F. lodge will be installed when the I. O. O. F. grand encampment is held in Minot on June 5, 6 and 7. A large attendance of delegates is anticipated at the Minot convention.

Harry W. Gill of Portal, N. D., has been elected grand master of the state lodge. He succeeds Grand Master W. S. Wickersham of Ellendale. For the 29th consecutive year, Don McDonald of Grand Forks is the grand secretary. He has served in that capacity since 1895. Other officers are: A. A. Disdale of Dickinson, deputy grand master; J. A. Pitzer, of Wilton, grand warden; Ole Serungard of Devils Lake, grand treasurer; W. S. Wickersham of Ellendale, grand representative for two years to the national organization meeting.

WHAT THIS BUFFALO PHYSICIAN HAS DONE FOR HUMANITY

The picture which appears here of Dr. Pierce of Buffalo, N. Y., was taken in 1919. As a young man, Dr. Pierce practiced medicine in Pennsylvania and was known far and wide for his great success in alleviating disease. He early moved to Buffalo and put up in ready-to-use form, his Golden Medical Discovery, the well-known tonic for the blood. This strengthbuilder is made from a formula which Dr. Pierce found most effective in diseases of the blood. It contains no alcohol and is an extract of native roots with the ingredients plainly stated on the wrapper. Good red blood, vim, vigor and vitality are sure to follow if you take this Alternative Extract. Dr. Pierce's Golden Medical Discovery clears away pimples and annoying eruption and tends to keep the complexion fresh and clear. This Discovery corrects the disordered conditions in a sick stomach, aids digestion, acts as a tonic and purifies the blood. Write Dr. Pierce's Invalids Hotel in Buffalo, N. Y., and receive confidential medical advice without charge. All druggists sell Discovery, tablets or liquid. Send 10c for trial pkg.

YOUR DOUBLE

Have you ever met your double? Somewhere, walking the earth at this very moment, is a person who is such an exact duplicate of you that, brought together, few could tell you apart.

Occasionally your attention is called to the Law of Duplicates, when newspapers discover and print pictures of the doubles of famous politicians, movie stars and so on.

You, of course, have had the experience of a stranger mistaking you for some one living at a distance. Sometimes the resemblance is so striking that the stranger thinks you are joshing when you inform him that he is mistaken.

The real you—that mysterious and indefinable inner something that includes thought and character and emotion—is never duplicated exactly, though occasionally each of us meets a person whose viewpoint is so strikingly similar to ours that it bewilders us.

An extraordinary case of mistaken identity was exposed the other day in England. Arthur Collins, arrested by Scotland Yard detectives on the charge of being an army deserter, was found to be the double of the man wanted.

He even had the same name, lived on the same street, followed the same trade in civilian life, and joined the army on the same day. Their fingerprints differ.

The "long arm of coincidence," in this case, operated to an extent never equaled in fiction, even "The Prisoner of Zenda."

We not only have living duplicates but we are duplicates of people who lived in the past. Old settlers have often observed this—how a boy or girl is almost an exact double of some ancestor of a few generations since.

Photography is a comparatively recent invention, so few of us can check back and find our double of long ago. In families where oil paintings have been preserved for several generations, the recurrence of "looks" is almost universally recognized.

It would be great sport, to turn the clock back a few centuries and come face to face with the man or woman whose features, build and mannerisms have cropped out in us.

Even more fascinating would be to turn the clock the other way and see the persons of the distant future who will be doubles of us who are living today.

This recurrence of doubles, generation after generation, probably is what started the oriental belief in reincarnation.

10,000 MURDERS

More than 10,000 murders were committed in the United States during 1921. This is revealed by a check-up conducted by Dr. Frederick L. Hoffman, consulting statistician of the Prudential Insurance Company.

Hoffman found that 28 leading cities, with combined population of 20,558,770, had 1910 murders last year.

On a population basis, this is over 10,000 known murders for the whole country. To them must be added the unknown number of murders that are successfully concealed and do not show up in the police reports. These probably run into the thousands.

The death toll should draw a grim smile from the Turks, next time America gets excited about Armenian massacres.

Open pigeonholes in your memory, compare records, and the thought occurs to you that just about as many Americans are murdered as are killed by autos.

Hard to decide, which of the two is more amazing.

Picture a town of 10,000 inhabitants, all murdered in cold blood during one night. A frightful picture. But it's a true picture of the murder situation in so-called civilized America.

Spread out over a gigantic territory and divided among our millions of people, with a murder here and there, day after day, and we lose sight of the terrible total.

Dr. Hoffman found that the 1921 murder rate was a fraction more than nine out of every 100,000 Americans.

Allowing for concealed murders that are never definitely discovered (including many "missing persons" cases), a conservative estimate is that one American in every 10,000 is murdered yearly.

Meaning: Your chance of being slain is one in 10,000 each year, one in 1000 during a period of 10 years. Figure it up over a lifetime and, if you lived 100 years, one chance in 100 of being murdered.

A dreadful penalty for permitting the sale of pistols, which are the death instruments in the majority of murders.

The brighter side of the picture is that, while more than 10,000 are murdered in a year, at least 108,000,000 are not murdered. As in all other forms of crime, evil is "far and away" in the minority. That's why evil gets so much attention—it's the exception, the unusual.

Most of us, after all, are decent law-abiding citizens.

BILL

Ex-Kaiser Bill halts his gardening and wood sawing to run a booth at the fair in Utrecht, Holland. He hovers nearby while his secretary sells pottery and green-surfaced copperware, some of the articles designed by Bill, including Persian vases.

As he counts up the gate receipts he must ponder how times have changed in six years. John W. Raper, humorist, once wondered if fate would have been more severe on Bill if he had slapped an American policeman.

It is reported that one-half of one per cent of the Russians make up the ruling Communist group. A similar percentage would like to swing this country for red liquor.

Most people, when they began reading about Piggly Wiggly thought it was a new puzzle game. And they were right.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

THE CRIME OF FLORIDA

The martyrdom of Martin Tabert in a leased-convict camp of Florida will not have been wholly in vain if it shall result in the complete abolition of a system of penance stained with all of the horrors of slavery days. Evidence, multiply shown, not only the existence of a convict system with every camp boss a Simon Legree, not only a system where the color of law is bent to punishment so ruthless and inhuman that the story goes shuddering over the country, but a situation where corrupt officials league with greedy contractors to coin money out of the extreme of human suffering.

Florida stands today debased and degraded in the eyes of civilization and humanity. Through political duress it has retained in its laws the sanction of a county system of leasing convicts on contract and condoning, if not authorizing, punishment that falls under the ban of the Federal Constitution as barbarous and unusual. There is palliation in the Florida mind, but in none other, in the fact that most of the convicts subjected to the torture of the lash and bludgeon are Negroes. Florida is not wholly out of the shadow of slavery days and the spirit of its laws animates its other activities. It required the intervention of such an incident as the actual murder of Martin Tabert and the indignant demand of North Dakota to touch Florida to shame.

It will not be easy to get rid of the fabled to purge Florida of this horror crime. High and petty officials as well as conscienceless contractors are in the mess of blood and mire. They have together made money out of the system. Together they will fight to gloss over the testimony and perpetuate the opportunities. But the conscience of the state has been touched and its real citizenship is not callous to the estimation in which it must stand in the minds of men. Investigation is inevitable and the truth will force the abolition of the conditions which put the Dark Ages to the blush. What the North Dakota legislature has recorded as its sentiment, which Florida vainly assumes to resent, will be echoed from every state in the Union if the Florida legislature falters or falls in the duty facing it—St. Paul Dispatch.

U. S. Aid Asked For Rebuilding Bridge

Fort Yates, N. D., April 17.—Indians of the Standing Rock reservation living in the Shields and Cannon Ball districts are petitioning to the Indian department to obtain financial assistance in the reconstruction of the bridge over the Cannon Ball river at Shields which was destroyed by high waters this spring. They seek to have the government use some of their trust-patent money in rebuilding the bridge which Grant and Sioux county commissioners claim they cannot raise the funds to care for. Settlers in the vicinity of the bridge site have salvaged all of the usable steel and timber. Request to have the bridge built will cost about \$5,000, the petition cites.

THE ODD ONE OF THE FAMILY

LETTER FROM ALICE HAMILTON, TON, BRIDESMAID AT THE WEDDING OF HER SISTER, LESLIE HAMILTON, AND JOHN ALDEN PRESCOTT, TO HER FRIEND, ELIZABETH STOKLEY.

DEAR, DEAR BETTY:

Only when I am the bride herself and perhaps not even then, will I ever have the thrill that I had as a bridesmaid at my sister Leslie's wedding yesterday.

You see, Betty dear, I had a secret knowledge of a blighted life.

I knew that, although Karl Whitney was standing bravely smiling at the other end of the line of ushers, he had received a thrust in his heart from which he would never recover.

How true it is, how very true it is, that truth is stranger than fiction!

There stood that splendid young man, much better-looking than the bridegroom, his face pale with emotion, but with a dauntless courage he held himself erect and only I could see that underneath it all he was being tortured in a way that had never been accomplished by the Spanish Inquisition.

I could not find it in my heart to forgive my sister Leslie had she not, poor darling, been utterly unconscious of the depth and breadth and height of the love which Karl Whitney was even then silently laying at her feet.

I do not think that I shall ever forget, however, the look of gratitude which came to me from his sad eyes.

(Oh, Betty, you never saw in the face of mortal man such wonderful love as those of Karl's.)

Leslie came up to the altar and was met by John and his best man and the ushers had arranged themselves at the side, I had a chance to look across at him and received his thanks for putting the pearls in his pearls, dear Betty—about my sister's neck.

Oh, Betty, you will never believe this, but as Leslie put her hand forward to receive the ring, she put her other hand to her throat convulsively to her throat and caught Karl's pearls.

Could anything be more dramatic—more tragic; and to think that only I and Karl Whitney knew!

Betty, if you put this in your new story, it will make you an author probably of one of the six best sellers, and you will have to divide the money with me.

I could tell at just what point of the ceremony Karl began to get himself under control. He looked over to me and a half smile curved his lips and I knew that my hero was himself again, and that he was saying in his heart:

"Oh, lost love, even though you are bride of another, I will be your devoted friend so long as my life shall last."

At that moment, Betty, I named him Sir Galahad and I knew that he was whispering to himself, "My strength is as the strength of ten because my heart is pure."

I am afraid, Betty, that you and I will never either of us be the recipient of a love like this. And I pray God that if we do, we shall not throw it away for the dress of some other love that is not as beautiful, even if we do it as unconsciously as Leslie has done.

Don't think from this letter that I consider John—I expect that I will have to call him Brother John from now on—had man. In fact, I consider him, as men go, above the average; but only once in a century perhaps is a Sir Galahad born.

When I see you, I will tell you further about this. I can not tell you some of the things that have happened; they are too sacred to put on paper. Particularly that moment in the vestry when Karl took me up in his arms.

"Dear little Alice," he said, "after this I shall have to treat you as a

ADVENTURE OF THE TWINS

By Olive Barton Roberts

The Tinker Man in Bing-Bang Land made Nick a soldier hat out of a newspaper and carved him a wooden sword. Then he painted a silver star on his shoulder.

"Now you are General Nick," he said.

And as Nancy was going to help the Bing Bang army by driving a Red Cross ambulance, the Tinker Man gave her a belt with a strap that went over her shoulder.

Off went the Twins then to find the wooden soldier army again.

They found them where they left them, standing in a stiff straight line and staring ahead at nothing, their colonels and majors and captains all in their proper places.

Nancy scrambled up on the ambulance seat at once and started the engine. Then she fixed the handles and let out the clutch just like a grown-up person. The car started to move slowly.

Nick took his place at once at the head of the army, his sword pressed against his shoulder.

Country Club Elect Officers at First Meeting of Season

The Country Club, opening the spring season earlier than ever before, was the scene of an enjoyable gathering last night. Upwards of 150 people were present.

At the annual business meeting of the club, P. J. Meyer was elected president; Joseph P. Hess of Mandan, vice president; G. H. Russ, Jr., treasurer, and Eric Thorberg, secretary; directors-at-large, Dr. V. J. LaRose, J. C. Taylor, Jack Hintgen of Mandan. The president, secretary and treasurer will appoint chairmen of the grounds and house committees who also act as directors.

Retiring President Burt Finney reviewed the past year and made suggestions as to the future. E. B. Cox outlined plans for golf tournaments and G. H. Russ, Jr., announced that the north tennis court would be resurfaced and the usual tournaments would be held during the year. F. H. Knowles has offered as a golf trophy a bronze plate, edged with sterling silver on a background of ebony. The plate bears the inscription "Winner of Annual Ringer Golf Tournament" and has space for engraving of names. To retain the plate one must win an annual tournament three successive times.

There were several tables of bridge and the dance floor was crowded during the evening. The house committee had prettily decorated the ball room.

The occasion was marred temporarily when it was discovered that about 300 freshly-made doughnuts which were to be part of the lunch time a group of small boys also disappeared. It was suggested to the house committee that if it desired to trace down the offenders, it visit all of the doctors' offices today. The house committee by quick and energetic effort provided lunch nevertheless.

The McKenzie orchestra furnished music for the dance. The ladies' bridge prize was won by Mrs. R. H. Tracy and the men's prize by W. L. Smith.

Open Classes For Playground Staff

The first meeting of the volunteer playground teachers will be held Wednesday evening at the high school gymnasium at 7:30 o'clock.

Instruction in playground methods, the history of the movement, and plans for the month's training which will be given the women and girls who plan to assist in instructing the girls of city during the summer will be taken up.

Since the course is to be short, Mr. MacLeod and Mrs. Kling who will act as instructors ask that every one planning to take part be present.

Members of the committee in charge of the work include Mrs. F. R. Smyth, Mrs. C. W. Moses, H. F. Keller, Mrs. J. J. MacLeod, Mrs. H. O. Wray, Mrs. Edward Bannan, and Mrs. W. W. Moyer.

Arranges Concert For Pen Inmates

Mrs. Alfred Zuger has arranged with members of the Thursday Musical Club and other musicians of the city to give a two-hour concert at the state penitentiary Wednesday evening at 7 o'clock for the inmates of the institution.

The program which has been prepared is miscellaneous, including vocal solos, readings, solo dancing, and instrumental and vocal trios, quartettes, and duets. A large number of the musicians in Bismarck will take part in this concert which is expected to be a big musical event of the season.

Transportation of the musicians on the night of the concert is being handled by Mrs. Zuger. She asks that anyone who does not have a means of getting out call her at 814 early Wednesday morning and she will arrange for automobiles to take them.

MacPhail Student To Open Studio Here

Maurice Fitzgerald, a veteran of the World War, who has been a student in the department of voice at the MacPhail School of Music at Minneapolis, Minn., for several years past expects to come to Bismarck to open a studio after he graduates in June, 1924. Mr. Fitzgerald studied voice in New York City sometime prior to entering the MacPhail school. During the coming season at the music department he expects to specialize in choir direction in addition to his work in vocal training.

While in New York he was under the instruction of Oscar Seagle for two seasons, and under the instruction of Harry Davidson and Hamlin Hunt of MacPhail. His choir work will be done under Stanley Avery.

SELECT WINNERS IN LUCAS'S HOME SEWING CONTEST

Winners of prizes in the Home Sewing contest for school girls put on by the A. W. Lucas Co., were selected yesterday afternoon.

Josephine Kositzky was awarded first prize, \$15; Ruby Peterson, 218 First Street, second prize, \$10; and Catherine McLaughlin, third prize, \$5. Merit prizes of \$3 each were awarded to Caroline Boehrsen, Bismarck; Marie Mercier, Mandan; Sarah Hall, Bismarck; and Mildred Beltz, Mandan; \$2 merit prizes were awarded to Estella Whitaker, Bismarck; Lila Wentzel, Mandan; Lucille Fisher, Bismarck, and Ernel Trowbridge, Mandan.

The garment taking first prize, a suit dress, was made of imported fancy raitine combined with spring time knitted silk crepe of bitter sweet brown combined with white crepe; the one taking second place was made from imported Japanese crepe in a combination of orange and robin's egg blue embroidered and trimmed in black and finished with a black patent belt. It was given a striking appearance with applique medallions of the same material.

The garment taking third prize was made of silk plaid tissue giving ham of white and tan combined with tan imported organza to match. It was a beautiful little dress which showed what could be accomplished at a small expense.

Acting as judges were Miss Mar-

jorie Morris, teacher of sewing and domestic science, at the high school, Mrs. I. Molleur, Business College Bk., and Mrs. William Laist, who made their selections on the basis of economy of material, style, practicability, and neatness of workmanship. The ladies spent more than two hours in making their selection from the large number of garments entered. They declared that after selecting the first three prizes, it was a difficult matter to make a choice from among the others, for they all were remarkable fine pieces of needle work for school girls. Four of the merit prizes were taken by girls from the Mandan Training school.

The display of dresses which ranged in cost from \$1.81 to \$11.72 with the majority of dresses costing around \$4 indicates the possibilities of obtaining beautiful dresses at a very low cost by a little home sewing, and also shows what young girls can make if they try.

The prize winning dresses will be on display in the show windows at Lucas's today and tomorrow.

YEOMEN PLAN BIG RECEPTION

Committees named by the Brotherhood of American Yeomen to arrange for the reception of the national president of the order, G. N. Frink, of Des Moines, Ia., who will come to Bismarck tomorrow with his wife, anticipate one of the largest gatherings of Yeomen in this section in many months. Two lodges of Man-

dan and two of Bismarck will join in the reception.

Initiation will be conducted from 7:30 to 8:15 p. m. Wednesday night at Patterson hall, a banquet will be served in the dining room at 9:15 p. m. and dancing will follow in Patterson hall after 10:15 p. m.

Mrs. Stubbs, Dore Resident, Dies

Mrs. J. P. Stubbs of Dore, age 52 years, passed away at a local hospital yesterday afternoon about 5:15 o'clock after an illness extending over a month in duration. She is survived by a husband and several children. The remains will be taken to Fairview, Mont., for burial.

When you eat Bran for constipation be certain that it is ALL BRAN!

There is no time to fuss away trying to find out just what some mixed-up cereal with a small bran content can do to ward off the grave illness that constantly hovers over constipation sufferers. What your system demands is ALL BRAN! You must have ALL BRAN to give permanent relief! Anything less than ALL BRAN does not have the bulk that gives results! Your physician will recommend Kellogg's Bran because it is ALL BRAN! Kellogg's will do the work; it will give you permanent relief; it will remake your health if you will eat it regularly—because it is ALL BRAN! Kellogg's Bran, cooked and krumbled, is wonderful for health. It sweeps, cleans and purifies, ridding the system of the dangerous toxic

poisons. Yet it is simply a natural food—nature's own remedy for constipation; nature's way of keeping every body-organ tuned true.

Eat Kellogg's Bran regularly to give permanent relief naturally—at least two tablespoons daily; for chronic cases, with every meal. It is as beneficial as a preventive. Its nut-like flavor is delicious. You will like it sprinkled over your favorite hot or cold cereal, or eat it as a cereal. Kellogg's Bran makes delightful muffins, raisin bread, pancakes, etc. It adds a fine flavor to soups and gravies. Have the whole family eat Kellogg's Bran and see the health of every member improve.

All grocers sell Kellogg's Bran.

YOUR DOUBLE

Have you ever met your double? Somewhere, walking the earth at this very moment, is a person who is such an exact duplicate of you that, brought together, few could tell you apart.

Occasionally your attention is called to the Law of Duplicates, when newspapers discover and print pictures of the doubles of famous politicians, movie stars and so on.

You, of course, have had the experience of a stranger mistaking you for some one living at a distance. Sometimes the resemblance is so striking that the stranger thinks you are joshing when you inform him that he is mistaken.

The real you—that mysterious and indefinable inner something that includes thought and character and emotion—is never duplicated exactly, though occasionally each of us meets a person whose viewpoint is so strikingly similar to ours that it bewilders us.

An extraordinary case of mistaken identity was exposed the other day in England. Arthur Collins, arrested by Scotland Yard detectives on the charge of being an army deserter, was found to be the double of the man wanted.

He even had the same name, lived on the same street, followed the same trade in civilian life, and joined the army on the same day. Their fingerprints differ.

The "long arm of coincidence," in this case, operated to an extent never equalled in fiction, even "The Prisoner of Zenda."

We not only have living duplicates but we are duplicates of people who lived in the past. Old settlers have often observed this—how a boy or girl is almost an exact double of some ancestor of a few generations since.

Photography is a comparatively recent invention, so few of us can check back and find our double of long ago. In families where oil paintings have been preserved for several generations, the recurrence of "looks" is almost universally recognized.

It would be great sport, to turn the clock back a few centuries and come face to face with the man or woman whose features, build and mannerisms have cropped out in us.

Even more fascinating would be to turn the clock the other way and see the persons of the distant future who will be doubles of us who are living today.

This recurrence of doubles, generation after generation, probably is what started the oriental belief in reincarnation.

10,000 MURDERS

More than 10,000 murders were committed in the United States during 1921. This is revealed by a check-up conducted by Dr. Frederick L. Hoffman, consulting statistician of the Prudential Insurance Company.

Hoffman found that 28 leading cities, with combined population of 20,558,770, had 1910 murders last year.

On a population basis, this is over 10,000 known murders for the whole country. To them must be added the unknown number of murders that are successfully concealed and do not show up in the police reports. These probably run into the thousands.

The death toll should draw a grim smile from the Turks, next time America gets excited about Armenian massacres.

Open pigeonholes in your memory, compare records, and the thought occurs to you that just about as many Americans are murdered as are killed by autos.

Hard to decide, which of the two is more amazing. Picture a town of 10,000 inhabitants, all murdered in cold blood during one night. A frightful picture. But it's a true picture of the murder situation in so-called civilized America.

Spread out over a gigantic territory and divided among our millions of people, with a murder here and there, day after day, and we lose sight of the terrible total.

Dr. Hoffman found that the 1921 murder rate was a fraction more than nine out of every 100,000 Americans.

Allowing for concealed murders that are never definitely discovered (including many "missing persons" cases), a conservative estimate is that one American in every 10,000 is murdered yearly.

Meaning: Your chance of being slain is one in 10,000 each year, one in 1000 during a period of 10 years. Figure it up over a lifetime and, if you lived 100 years, one chance in 100 of being murdered.

A dreadful penalty for permitting the sale of pistols, which are the death instruments in the majority of murders.

The brighter side of the picture is that, while more than 10,000 are murdered in a year, at least 108,000,000 are not murdered. As in all other forms of crime, evil is "far and away" in the minority. That's why evil gets so much attention—it's the exception, the unusual.

Most of us, after all, are decent law-abiding citizens.

BILL

Ex-Kaiser Bill halts his gardening and wood sawing to run a booth at the fair in Utrecht, Holland. He hovers nearby while his secretary sells pottery and green-surfaced copperware, some of the articles designed by Bill, including Persian vases.

As he counts up the gate receipts he must ponder how times have changed in six years. John W. Raper, humorist, once wondered if fate would have been more severe on Bill if he had slapped an American policeman.

It is reported that one-half of one per cent of the Russians make up the ruling Communist group. A similar percentage would like to swing this country for red liquor.

Most people, when they began reading about Piggy Wiggy, thought it was a new puzzle game. And they were right.

EDITORIAL REVIEW

Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press of the day.

THE CRIME OF FLORIDA

The martyrdom of Martin Luther in a leased camp of Florida will not have been wholly in vain if it shall result in the complete abolition of a system of penance stained with all of the horrors of slavery days. Evidence multiply to show, not only the existence of a convict system with every camp boss a Simon Legree, not only a system where the color of law is lent to punishment so ruthless and inhuman that the story goes shuddering over the country, but a situation where corrupt officials league with greedy contractors to coin money out of the extreme of human suffering.

Florida stands today debased and degraded in the eyes of civilization and humanity. Through political influence it has retained in its laws the sanction of a county system of leasing convicts on contract and condoning, if not authorizing, punishment that falls under the ban of the Federal constitution as barbarous and unusual. There is palliation in the Florida mind, but in none other, in the fact that most of the convicts subjected to the torture of the lash and bluegum are Negroes. Florida is not wholly out of the shadow of slavery days and the spirit of its laws animates its other activities. It required the intervention of such an incident as the actual murder of Martin Luther and the indignant demand of North Dakota to touch Florida to shame.

It will not be easy to get to the bottom of this Florida crime. High and petty officials, as well as conscienceless contractors, are in the mess of blood and office. They have together mace money out of the system. Together they will fight to gloss over the testimony and perjure the opportunities. But the conscience of the state has been touched and its next citizenship is not callous to the estimates in which it must stand in the minds of men. Investigation is inevitable and the truth will force the abolition of the conditions which put the Dark Ages to the blush. What the North Dakota legislature has recorded as its sentiments, which Florida vainly assumes to resent, will be echoed from every state in the Union if the Florida legislature fails, or falls in the duty facing it—St. Paul Dispatch.

U. S. Aid Asked For Rebuilding Bridge

Fort Yates, N. D., April 17.—Indians of the Standing Rock reservation living in the Shields and Cannon Ball districts are petitioning the Indian department to obtain financial assistance in the reconstruction of the bridge over the Cannon Ball river at Shields which was destroyed by high waters this spring. They seek to have the government some of the trust-patent money for rebuilding the bridge which Grant and Sioux county commissioners claim they cannot raise the funds to care for. Settlers in the vicinity of the bridge site have salvaged all of the usable steel and timber. Repairs to the bridge will cost about \$5,000, the petition states.

THE ODD ONE OF THE FAMILY

LETTER FROM ALICE HAMILTON, TON, BRIDESMAID AT THE WEDDING OF HER SISTER, LESLIE HAMILTON, AND JOHN ALDEN PRESCOTT, TO HER FRIEND, ELIZABETH STOKLEY.

DEAR, DEAR BETTY: Only when I am the bride herself and perhaps not even then, will I ever have the thrill that I had as a bridesmaid at my sister Leslie's wedding yesterday. You see, Betty dear, I had a sense of a bright life. I knew that, although Karl Whitney was standing bravely smiling at the other end of the line of ushers, he had received a thrust in his heart from which he would never recover. How true it is, how very true it is, that truth is stranger than fiction. There stood that splendid young man, much better-looking than the bridegroom, his face pale with emotion, but with a dauntless courage he held himself erect and only I could see that underneath it all he was being tortured in a way that had never been accomplished by the Spanish Inquisition.

I could not find it in my heart to forgive my sister Leslie for not, poor darling, been utterly unconscious of the depth and breadth and height of the love which Karl Whitney was even then silently laying at her feet. I do not think that I shall ever forget, however, the look of gratitude which came to me from his eyes. Oh, Betty, you never saw in the face of mortal man such wonderful love as that of Karl's. Leslie came up to the altar and was met by John and his best man and the ushers had arranged themselves at the side. I had a chance to look across at him and received his thanks for putting the pearls he pearls, dear Betty, about my sister's neck.

Oh, Betty, you will never believe this, but as Leslie put her hand forward to receive the ring, she put her other hand rather convulsively to her throat and caught Karl's pearls. "Could anything be more dramatic more tragic and to think that only I and Karl Whitney knew!" Betty, if you put this in your new story, it will make you an author probably of one of the six best sellers, and you will have to divide the money with me.

I could tell at just what point of the ceremony Karl began to get himself under control. He looked over to me and a half smile curved his lips and I knew that my hero was himself again, and that he was saying in his heart:

"Oh, lost love, even though you are bride of another, I will be your devoted friend so long as my life shall last."

At that moment, Betty, I named him Sir Galahad and I know that he was whispering to himself, "My strength is as the strength of ten because my heart is pure."

I am afraid, Betty, that you and I will never either of us be the recipient of a love like this. And I pray God that if we do, we shall not throw it away for the dross of some other love that is not as beautiful, even if we do it as unconsciously as Leslie has done.

Don't think from this letter that I consider John—I expect that I will have to call him Brother John from now on—a bad man. In fact, I consider him, as men go, above the average; but once in a century perhaps there is a Sir Galahad born.

When I see you, I will tell you further about this. I can not tell you some of the things that have happened; they are too sacred to put on paper. Particularly that moment in the vestry when Karl took me up in his arms.

"Dear little Alice," he said, "after this I shall have to treat you as a

ADVENTURE OF THE TWINS

By Olive Barton Roberts

The Tinker Man in Bing-Bang Land made Nick a soldier hat, out of a newspaper and carved him a wooden sword. Then he painted a silver star on his shoulder.

"Now you are General Nick," he said.

And as Nancy was going to help the Bing-Bang army by driving a Red Cross ambulance, the Tinker Man gave her a belt with a strap that went over her shoulder.

Off went the Twins then to find the wooden soldier army again.

They found them where they had left them, standing in a stiff straight line, and waiting about at nothing, their colonels all majors and captains all in their proper places.

Nancy scrambled up on the ambulance seat at once and started the engine. Then she fixed the handle, and let out the clutch just like a real grown up person. The car started to move slowly.

Nick took his place at once at the head of the army, his sword pressed against his shoulder.

"Ready! March!" he commanded.

And away they all went. Left right, left right, left right, left right, their wooden legs thumped the ground at each step. At last they came to a bridge and Nick led them right over.

"Halt!" he commanded suddenly. The wooden soldiers stopped so quickly they nearly fell over backward.

Then Nick took his spy glass out of his pocket and looked for the enemy.

But he hadn't long to wait, for just then some tin snuff boxes and big hats came galloping over the hill on their tin horses.

Bong, bang, bang! went their guns. But when they saw the water guns of the wooden soldiers, they fled in dismay.

They dared not run the risk of getting hurt.

BASEBALL SIGN IS HUNG OUT IN NATIONAL

Umpires to Call Play Ball in Oldest of the Major Leagues

Chicago, April 17.—The familiar sign, "baseball today," came into view today on street cars and busses as players and fans in four major league cities prepared for the opening games this afternoon of the National League schedule.

The time-honored customs of band playing, flag raising and throwing of the first ball by the mayors were expected to be carried out in various cities.

President John A. Heydler of the National League was the guest of the Chicago Cubs in the initial clash here with the Pittsburgh Pirates at the Cubs reconstructed park.

K. M. Landis, commissioner of base ball, was at Boston, the guest of the Boston Braves and Christy Mathewson for the opening there with the New York Giants, champions of the world.

St. Louis was at Cincinnati and Philadelphia at Brooklyn. Fair and warmer was the general weather indication in most of the cities.

NEW STADIUM NOW COMPLETE

Yankees Play First Game of Season In Huge New Park

COST \$3,000,000

New York, April 17.—When baseball, the nation-wide magnet, begins attracting its swarms of fans to its two poles here this season, New York's devotees of the sport will wend their way into the two largest and finest parks in the country.

The new \$3,000,000 Yankee stadium is now practically complete, and vast improvements have been under way at the Polo Grounds, home of the world's champion Giants, where the seating capacity is being increased to 54,000. The combined seating capacity of the two parks at the opening of this season will be 120,000—75,000 at the Yankee stadium and 45,000 at the Polo Grounds—but within a few weeks this will be increased to 130,000. In future years, when final plans are completed, 154,000 spectators can be accommodated on a single day.

Largest of Kind
The Yankee stadium, the largest baseball park in the country, will be ready for the opening game next Wednesday, with the Boston Red Sox, and will accommodate 75,000 persons. When completed, it will seat 100,000.

The severity of the winter has retarded work at the Polo Grounds, but 45,000 seats will be available there April 26, at the first call of "Batt'ries for today," and before the end of May 54,000 will be ready.

Imposing Arena
The Yankee park is an imposing arena with its tier of wooden bleachers surrounding most of the outfield and huge steel and concrete grandstand, consisting of two decks and a mezzanine floor. The bleachers, newly painted in bright green, are ready for the first mob of "dyed-in-the-wool" enthusiasts.

The grandstand is complete except for two decks of seats in the extreme left field section, which will be added after the close of the 1923 season. There are rows of box seats in front of all seats in the two decks as well as the mezzanine. The enclosure for newspapermen is in front of the mezzanine floor and directly behind home plate.

An immense score board has been erected over the center-field bleachers with fingers a foot high, visible from any section of the park. Scores of all games in both major leagues will be posted daily.

Available For Track
Under the direction of Phil Schenck, veteran ground-keeper who was in charge of the Yankees' old field more than a decade ago, the playing field has been sodded from the edge of the stands to the rim of the bleachers, except for a track 24 feet wide encircling the field. The track measures 400 yards and shows a straightaway of 120 yards. It will be available for track meets when the field is not being used for baseball. Its temporary wooden trim can be removed when the track is not in use so as not to interfere with the fly-chasers.

The field is 282 feet, 6 inches wide. When Babe Ruth hits a home run over second base to the center field bleachers, the ball will have to travel 475 feet.

The main entrance and exit to the grand stand are on 157th Street and Doughty Street. The grandstand and bleachers cost the Yankees \$2,500,000, and the grounds, slightly more than \$500,000.

Polo Grounds Improved
The old wooden bleachers at the Polo Grounds have been replaced by concrete and steel structures extending from each end of the grandstand around the outfield. In center field two bleacher sections have been finished, each seating 2,500 persons and separated by an exit gate. Behind each uncovered stand

AMERICAN LEAGUE CHIEFS SIZE UP THEIR TEAMS

BY CONNIE MACK.
Manager Philadelphia Athletics.
I feel that the experimental days are over as far as the Athletics are concerned. My team has arrived. All I ask is pitching, and we will make any team in the league step some. Sammy Hale has made our infield, which is now one of the best in the American League. Pitching is my greatest worry, yet outside of the New York club, I can't figure where any other team in the American League has much on us in that respect. The Athletics are no longer the door mat of the American League.

BY DONIE BUSH.
Manager Washington Nationals.
Far be it from me to make any predictions on the outcome of the American League race. In my first year as a big league manager I am anxious to make good. I am hopeful that the showing of the Washington club will win me such recognition. I know the players are for me and that means everything. I will say this about my club, it will be in there fighting for every game. Washington fans will get a run for their money for the players will always be giving their best efforts.

BY FRANK CHANCE.
Manager Boston Red Sox.
Getting out of last place will be chief thought in my new job as manager of the Boston Red Sox. It would be ridiculous for me to talk pennant stuff. I feel that the addition of McMillan, Camp, O'Doul and Murray, secured in the trade with New York, will help my team, also the Washington trade that gave me Catcher Pfeiffer and Outfielder Gobel and Infielder Shanks. Boston fans will see many new faces this year, pretty much a new team that is going to make a better showing than last year. O'Doul and Murray should help my pitching.

BY KID GLEASON.
Manager Chicago White Sox.
The White Sox are going to be mighty troublesome the coming season. William Kamm is a great ball player. He has plugged up the hole at third base. My pitching will be much improved. Leverette, Robertson and Ted Blankenship made their major league debut last year. The trio of youngsters will show the benefit of that experience. Then there is "Red" Faber, the most effective pitcher in the league last year. In addition I have three stars vets in Schalk, Collins and Hooper. We are certain to make a first division noise.

is a clubhouse of concrete and steel, one of four stories to be occupied by the Giants.

Extending from the original left wing of the grandstand and covering about 250 feet is a high concrete structure that will carry an upper tier of seats. Broadening out into deep center field, this wing will assume the proportions of the grandstand as it first was built around the diamond. In deep right field, another wing has been added.

JOCK MALONE IS DEFEATED

St. Paul, Minn., April 17.—Billy Wells, welterweight champion of England, easily outpointed Jock Malone, of St. Paul, recognized as middleweight champion in a number of states, in a ten round no decision bout here last night, in the opinion of newspapermen at the ring side.

Wells outfought and outboxed Malone in nearly every round.

TAKE WRESTLER TO HOSPITAL

Nashville, Tenn., April 17.—Unconscious as the result of a headlock applied by "Strangler" Lewis, world's heavyweight champion, in

BY MILLER HUGGINS.
Manager New York Yankees.
Pitching will decide the American League pennant. The Yankees have the pitching. In Penneck I have acquired a high-class left-handed pitcher to fill the one and only weakness on our club. I am confident the Yankees will again repeat. I want another crack at the world series. The Yankees are a much better club than they ever showed in the big event. The best of feeling prevails on my club despite the efforts of some people to make it seem otherwise.

BY LEE FOHL.
Manager St. Louis Browns.
The big idea with me is to win ball games during the season rather than pennants in the spring. I have no predictions to make as to the outcome of the race. I am positive I have a great ball club and feel certain the boys will prove it. The Browns lost the pennant by only one game last year. We may do even better this year. I am hopeful that Sisler will have fully recovered as he means much to my ball club. His absence from the game for any great length of time would prove very serious.

BY TRIS SPEAKER.
Manager Cleveland Indians.
In rebuilding the Cleveland ball club, I feel that we have already accomplished much. Three new players, Lutzke, Summa and Myatt will add much needed strength to the Indians. The spirit to win is uppermost with every player. The boys have forgotten they ever won a world series in 1920. I am shooting at a first division berth. Fourth place will look pretty good to me. I want to stick around in the first division. If a club holds a berth there, first place is never very far away.

BY TY COBB.
Manager Detroit Tigers.
Give the Detroit team good pitching and it will make trouble for any club. The Tigers are strong at every position and well supplied with capable substitutes. Pitching will be the big thing with my club. If Johnson comes through as I feel he should, and Rip Collins and Ray Francis win consistently, the Tigers are going to upset a lot of dope for the expense as well as other American League clubs. I am well pleased with my youngsters, and positive several of them will be very valuable to the club during the coming season.

a wrestling match here last night, Wallace Dugid, Canadian wrestler, was taken to a hospital. Physicians expressed the belief that he was in a serious condition. Nineteen headlocks were applied on Dugid, the last one coming after one hour and 23 minutes of wrestling.

A FAR CRY FROM THE Old-time Town Crier TO THE MODERN DAILY NEWSPAPER

In his time, the Town Crier served the identical purpose of the modern daily—the broadcasting of the news.

And it is interesting to note that this picturesque figure has not entirely passed into history, for in remote places, where transportation facilities are still primitive, he continued to ply his vocation.

During the war, American Troops stationed in out-of-the-way towns of France, were regaled each day with bellman's performance, in broadcasting the news from the steps of the local Hotel de Ville, or town hall.

In fact, in no other country in the world has the amazing growth of the newspaper equalled that of the United States, where the ancient bell-ringer has been put completely out of business, for even the small towns now have their daily papers, and special mail trains carry the big metropolitan dailies into remote districts.

Advertisers have been quick to grasp the unique possibilities of the daily newspaper. No other medium serves their purpose quite so well—in bringing the advertising message into the homes without loss of time or effort.

This view amounts to a conviction with the manufacturers of Shinola Shoe Polish. In 1922, using newspapers exclusively in advertising their product, the sales of Shinola were the largest in the history of the business and the number of boxes sold the largest on record of any paste shoe polish in America.

Which explains why Shinola plans an advertising appropriation for 1923 larger than ever, and why this company's advertising efforts will be confined to daily newspapers.

DECISION OF COURT FAILS TO HURT PRICE

Scarcity of Offerings Noted in Chicago Pit in Early Trading Today

Chicago, April 17.—Owing largely to an unlooked for scarcity of offerings wheat took an upward swing in price today during the early dealings. Bullish crop reports, especially from western Nebraska, tended to stimulate buying and so, likewise, did comparative steadiness of quotations at Liverpool. The U. S. supreme court decision upholding the validity of the grain futures act appeared to have lost effect as a bearish influence. Opening prices which varied from unchanged figures to 1/2 cents higher with May, \$1.24 1/2 to \$1.24 3/4 and July, \$1.22 1/2 to \$1.22 3/4, were followed by a moderate advance. Subsequently, despite improved weather conditions over the entire grain belt the market scored a further advance. The close was strong, with May, \$1.25 1/2 to \$1.26 and July \$1.23 1/2 to \$1.24 1/2.

CHICAGO LIVESTOCK.

Chicago, April 17.—Cattle receipts, 10,000. Fairly active, generally steady to strong. Spots higher on better grade beef steers, early top, \$9.65. Veal calves largely 60 cents higher. Stockers and feeders slow, weak selected fat kind full steady. Sheep active. Lambs steady to strong. Top, \$14.50 to packers and shippers.

Hog receipts, 28,000. Slow, mostly 10 cents lower than Monday's best kind. Top, \$8.55. Killing pigs, \$6.30 to \$8.

ST. PAUL LIVESTOCK.

St. Paul, April 17.—Cattle receipts, 2,500. Market mostly steady. Common and medium beef steers, \$6.25 to \$8.50. Butcher cows and heifers, \$4.50 to \$8.25. Canners and putters largely, \$2.75 to \$3.75. Regulator bulls mostly \$4.25 to \$4.50. Stockers and feeders steady. Best western feeders, \$5.25. Bulls, \$6 to \$7.25. Calves receipts, 3,200. Market mostly 25 cents higher. Best lights, \$7 to \$8. \$7.25 practical packer top.

Hog receipts, 13,000. Market averaging about steady. Best 150 to 200-pound averages to shippers, \$9.10. Packing sows, \$6.75 to \$7. Stags, \$5.50 to \$6. Bulls, desirable, \$7.75 to \$7.85.

Sheep receipts, 400. Market about steady. Run consists largely of one load billed through.

Jail Indians For Three Days

Joe Ashure and Tom Pattenau, Indians who gave the residents of the East side a scare by chasing the children, were each sentenced to three days in the county jail Saturday on charges of drunk and disorderly conduct when arraigned before Justice G. L. Olson.

The activities of the two men who, during the two days, have held a team for a few dollars, traded the mule for moonshine liquor, are being investigated and it is probable that further charges will be lodged against them.

State's Atty. L. H. Connolly and Sheriff Charles McDonald are in communication with reservation officials concerning the men.

Some of the hospital supplies and signaling equipment recently ordered for Mandan, N. D. by the Boy Scouts of America has arrived according to Scoutmaster Robert Wilson, and will be used at the regular meeting of the scouts this evening at Elks hall at 7:15 o'clock.

The boys of the Sunday school of Christ Episcopal church were entertained at a dinner party last evening at the home of Rev. and Mrs. F. H. Davenport.

A regular meeting of the Gilbert S. Furness Post No. 40 of the American Legion has been called for Thursday evening.

Frank Kasper, Jr., of Glenwood, Minn., arrived in the city Saturday and will spend several weeks here with his brothers, T. J. Kasper and Dr. J. A. Kasper.

John Ingalls, well known farmer of the Sweet Briar-Almont vicinity, has been discharged from the hospital.

ANNOUNCE WEDDING

Formal announcement of the approaching wedding May 15 at Chicago of Miss Euleta L. Croswaite, daughter of Mr. and Mrs. Jos. Croswaite, 207 Third Avenue N. W., to Arthur C. Krane of Chicago, was made to eight intimate friends of the bride-to-be at a dinner party given by Mrs. Croswaite Saturday evening at her home. Yellow jonquils were effectively used in table decorations while an announcement card was attached to jonquils marking the places of the guests. Mrs. Croswaite and daughter will leave early in May for Chicago.

Two new modern completely equipped and beautifully furnished new restaurants will be opened in the city on Wednesday according to announcements made today. The new Palace Cafe, owned by Chris Tossan, and Peter Tamas will open in the former location of the Victory Candy company and the Busy Bee restaurant will be opened in the basement of the Mandan Drug company. Both are operated by experienced restaurant men.

GOOD SCORES AT SHOOT

Good scores were made at the first shoot of the Mandan Gunclub held Sunday morning at the traps west of the city, although most of the members have not sighted a gun since last fall.

Two squads were in action headed by J. A. Harding and John F. Sullivan. The Harding squad won over the Sullivan men by a 187 to 170 score.

SCHOOLS CLOSED.

Williston, N. D., April 17.—All public schools in Williston have been closed by order of the Board of Health and the Board of Education and will remain closed until Monday, April 23. It is stated that sickness among pupils is the cause of the action taken by these boards. The action was taken as a precautionary measure.

Petty thievery has been going on about the city for the past few evenings. Owners leaving their cars stand have found their removable equipment missing when they returned to the cars.

Misses Helen Fullerton and Mary Murphy, members of the high school faculty, entertained a number of the high and grade school teachers at a card party Saturday evening at the home of Mr. and Mrs. Geo. F. Wilson.

Al Browning of Minneapolis arrived Saturday to spend several weeks with his sister, Mrs. Wm. Cummins.

Adolph Nelson, farmer near the city, narrowly escaped death Saturday when his horse became caught between the belt and pulley on a threshing engine which he was operating. He suffered a severe fracture of the upper left arm.

F. E. Mumby of Mandan has purchased the Albert Borchers farm five miles southwest of Judson. The farm is a half section of land, and is located right near another quarter section of land owned by Mr. Mumby. He will move onto the farm at once and with Lester and Donald, his sons, will farm the three quarters this year. He will take his 32 dairy cattle here from Mandan with him.

DECISION OF COURT FAILS TO HURT PRICE

Scarcity of Offerings Noted in Chicago Pit in Early Trading Today

Chicago, April 17.—Owing largely to an unlooked for scarcity of offerings wheat took an upward swing in price today during the early dealing. Bullish crop reports, especially from western Nebraska, tended to stimulate buying and so, likewise, did comparative steadiness of quotations at Liverpool. The U. S. supreme court decision upholding the validity of the grain futures act appeared to have lost effect as a bearish influence. Opening prices which varied from unchanged figures to 3/4 cents higher with May, \$1.24 1/4 to \$1.24 3/4, and July, \$1.22 1/4 to \$1.22 3/4, were followed by a moderate advance. Subsequently despite improved weather conditions over the entire grain belt the market scored a further advance. The close was strong, 1 1/2 to 2 1/2 cents net higher, with May, \$1.25 1/4 to \$1.26 and July \$1.23 1/4 to \$1.23 3/4.

CHICAGO LIVESTOCK.

Chicago, April 17.—Cattle receipts, 10,000. Fairly active, generally steady to strong. Spots higher on better grade beef steers, early top, \$9.65. Veal calves largely 50 cents higher. Stockers and feeders slow, weak, selected fat kind full steady. Sheep active. Lambs steady to strong. Top, \$14.00 to packers and shippers.

Hog receipts, 28,000. Slow, mostly 10 cents lower than Monday's best kind. Top, \$8.55. Killing pigs, \$6.50 to \$8.

ST. PAUL LIVESTOCK.

St. Paul, April 17.—Cattle receipts, 2,500. Market mostly steady. Common and medium beef steers, \$6.25 to \$8.50. Butcher cows and heifers, \$4.50 to \$8.35. Canners and cutters largely, \$2.75 to \$3.75. Bologna bulls mostly \$4.25 to \$4.50. Stockers and feeders steady. Best western feeders, \$8.25. Bulk, \$6 to \$7.25. Calves receipts, 3,200. Market mostly 25 cents higher. Best lights, \$7 to \$8. \$7.25 practical packer top.

Hog receipts, 13,000. Market averaging about steady. Best 150 to 200-pound averages to shippers, \$8.10. Packing sows, \$6.75 to \$7. Stags, \$5.50 to \$6. Bulk, desirable, \$7.75 to \$7.85.

Sheep receipts, 400. Market about steady. Run consists largely of one load billed through.

Jail Indians

For Three Days

Joe Ashure and Tom Pattenaud, Indians who gave the residents of the East side a scare by chasing three children, were each sentenced to three days in the county jail Saturday on charges of drunk and disorderly conduct when arraigned before Justice C. L. Olson.

The activities of the two men who during their two days here sold a wagon for a few dollars, traded the mule for moonshine liquor, are being investigated and it is probable that further charges will be lodged against them.

State's Atty. L. H. Connolly and Sheriff Charles McDonald are in communication with re-cervation officials concerning the men.

Nathan Miller of St. Paul has purchased a half interest in the grocery store business of Abraham Rosen and will assume charge of the store.

Red Fritz, L. Forde, Tom Stehner, George Gruenfelder, Edward Melecke and Albert Heinz left Sunday evening for Chicago, Ill., where they have secured employment in a steel works.

BASEBALL SIGN IS HUNG OUT IN NATIONAL

Umpires to Call Play Ball in Oldest of the Major Leagues

Chicago, April 17.—The familiar sign "Play Ball" today came into view today on street cars and busses as players and fans in four major league cities prepared for the opening games this afternoon of the National League schedule.

The time-honored customs of band playing flag raising and throwing of the first ball by the mayors were expected to be carried out in various cities.

President John A. Heydler of the National League was the guest of the Chicago Cubs in the initial clash here with the Pittsburgh Pirates at the Cubs reconstructed park.

K. M. Landis, commissioner of base ball, was at Boston, the guest of the Boston Braves and Christy Mathewson for the opening there with the New York Giants, champions of the world.

St. Louis was at Cincinnati and Philadelphia at Brooklyn. Fair and warmer was the general weather indication in most of the cities.

COST \$3,000,000

New York, April 17.—When baseball, the nation-wide magnet, begins attracting its swarms of fans to its two poles here this season, New York's devotees of the sport will find their way into the two largest and finest parks in the country.

The new \$3,000,000 Yankee stadium is now practically complete, and vast improvements have been under way at the Polo Grounds, home of the world's champion Giants, where the seating capacity is being increased to 54,000. The combined seating capacity of the two parks at the opening of this season will be 120,000. 75,000 at the Yankee stadium and 45,000 at the Polo Grounds—but within a few weeks this will be increased to 120,000. In future years, when final plans are completed, 154,000 spectators can be accommodated on a single day.

Largest of Kind
The Yankee stadium, the largest baseball park in the country, will be ready for the opening game next Wednesday with the Boston Red Sox, and will accommodate 75,000 persons. When completed, it will seat 100,000.

The severity of the winter has retarded work at the Polo Grounds, but 45,000 seats will be available there April 26, at the first call of "Batteries for today," and before the end of May 54,000 will be ready.

Impregnable
The Yankee park is an imposing arena with its tier of wooden bleachers surrounding most of the outfield and huge steel and concrete grandstand, consisting of two decks and a mezzanine floor. The bleachers, newly painted in bright green, are ready for the first mob of "died-in-the-wool" enthusiasts.

The grandstand is complete except for two decks of seats in the extreme left field section, which will be added after the close of the 1923 season. There are rows of box seats in front of all seats in the two decks as well as the mezzanine. The enclosure for newspapermen is in front of the mezzanine floor and directly behind home plate.

An immense score board has been erected over the center-field bleachers with figures a foot high, visible from any section of the park. Scores of all games in both major leagues will be posted daily.

Available For Track

Under the direction of Phil Schenck, veteran ground-keeper who was in charge of the Yankees' old field more than a decade ago, the playing field has been sodded from the edge of the stands to the rim of the bleachers, except for a track 24 feet wide encircling the field. The track measures 400 yards and has a straightaway of 120 yards. It will be available for track meets when the field is not being used for baseball. Its temporary wooden rim can be removed when the track is not in use so as not to interfere with the flycatchers.

The field is 322 feet, 6 inches wide. When Babe Ruth hits a home run over second base to the center field bleachers, the ball will have to travel 475 feet.

The main entrance and exit to the grand stand are on 157th Street and Doughty Street. The grandstand and bleachers cost the Yankees \$2,500,000, and the grounds, slightly more than \$500,000.

Polo Grounds Improved

The old wooden bleachers at the Polo Grounds have been replaced by concrete and steel structures extending from each end of the grandstand around the outfield. In center field two bleacher sections have been finished, each seating 2,500 persons and separated by an exit gate. Behind each uncovered stand

THE SEASON OPENS!

AMERICAN LEAGUE CHIEFS SIZE UP THEIR TEAMS

BY CONNIE MACK.
Manager Philadelphia Athletics.
I feel that the experimental days are over as far as the Athletics are concerned. My team has arrived. All I ask is pitching, and we will make any team in the league step some. Sammy Hale has made our infield, which is now one of the best in the American League. Pitching is my greatest worry. Pitching is my New York club, I can't figure where any other team in the American League has much on us in that respect. The Athletics are no longer the door mat of the American League.

BY DONIE BUSH.
Manager Washington Nationals.
Far be it from me to make any predictions on the outcome of the American League race. In my first year as a big league manager I am anxious to make good. I am hopeful that the showing of the Washington club will win me such recognition. I know the players are for me and that means everything. I will say this about my club, it will be in there fighting for every game. Washington fans will get a run for their money for the players will all ways be giving their best efforts.

BY FRANK CHANCE.
Manager Boston Red Sox.
Getting out of last place will be chief thought in my new job as manager of the Boston Red Sox. It would be ridiculous for me to talk pennant stuff. I feel that the addition of McMillan, Camp, O'Doul and Murrin, secured in the trade with New York, will help my team, also the Washington trade that gave me Catcher Pielisch and Outfielder Gobel and Infielder Shanks. Boston fans will see many new faces this year, pretty much a new team that is going to make a better showing than last year. O'Doul and Murrin should help my pitching.

BY KID GLEASON.
Manager Chicago White Sox.
The White Sox are going to be mighty troublesome this coming season. William Kamm is a great ball player. He has plugged up the hole at third base. My pitching will be much improved. Leverette, Robertson and Ted Blankenship made their major league debut last year. The trio of youngsters will show the benefit of that experience. Then there is "Red" Faber, the finest effective pitcher in the league last year. In addition I have three stars vets in Schalk, Collins and Hooper. We are certain to make a first division noise.

is a clubhouse of concrete and steel, one of four stories to be occupied by the Giants.

Extending from the original left wing of the grandstand and covering about 250 feet is a high concrete structure that will carry an upper tier of seats. Broadening out into deep center field, this wing will assume the proportions of the grandstand as it first was built around the diamond. In deep right field, another wing has been added.

JOCK MALONE IS DEFEATED

St. Paul, Minn., April 17.—Billy Wells, welterweight champion of England, easily outpointed Jock Malone, of St. Paul, recognized as middleweight champion in a number of states, in a ten round decision bout here last night, in the opinion of newspapermen at the ring side.

Wells outpointed and outboxed Malone in nearly every round.

BY MILLER AUGGINS.
Manager New York Yankees.
Pitching will decide the American League pennant. The Yankees have the pitching. In Penneck I have acquired a high-class left-handed pitcher to fill the one and only weakness on our club. I am confident the Yankees will again repeat. I want another crack at the world series. The Yankees are a much better club than they ever showed in the big event. The best of feeling prevails on my club despite the efforts of some people to make it seem otherwise.

BY LEE FOHL.
Manager St. Louis Browns.
The big idea with me is to win ball games during the season rather than pennants in the spring. I have no predictions to make as to the outcome of the race. I am positive I have a great ball club and feel certain the boys will prove it. The Browns lost the pennant by only one game last year. We may do even better this year. I am hopeful that sister will have fully recovered as he means much to my ball club. His absence from the game for any great length of time would prove very serious.

BY TRIS SPEAKER.
Manager Cleveland Indians.
In rebuilding the Cleveland ball club, I feel that we have already accomplished much. Three new players, Lutzke, Summa and Myatt will add much needed strength to the Indians. The spirit to win is uppermost with every player. The boys have forgotten they ever won a world series in 1920. I am shooting at a first division berth. Fourth place will look pretty good to me. I want to stick around in the first division. If a club holds a berth there, first place is never very far away.

BY TY COBB.
Manager Detroit Tigers.
Give the Detroit team good pitching and it will make trouble for any club. The Tigers are strong at every position and well supplied with capable substitutes. Pitching will be the big thing with my club. If Johnson comes through as I feel he should, and Rip Collins and Ray Francis win consistently, the Tigers are going to upset a lot of dope for the experts as well as other American League clubs. I am well pleased with my youngsters, and positive several of them will be very valuable to the club during the coming season.

a wrestling match here last night. Wallace Dugid, Canadian wrestler, was taken to a hospital. Physicians expressed the belief that he was in a serious condition. Nine teen bandlocks were applied on Dugid, the last one coming after one hour and 23 minutes of wrestling.

A FAR CRY

FROM THE

Old-time Town Crier

TO THE

MODERN DAILY NEWSPAPER

In his time, the Town Crier served the identical purpose of the modern daily—the broadcasting of the news.

And it is interesting to note that this picturesque figure has not entirely passed into history, for in remote places, where transportation facilities are still primitive, he continued to ply his vocation.

During the war, American Troops stationed in out-of-the-way towns of France, were regaled each day with bellman's performance, in broadcasting the news from the steps of the local Hotel de Ville, or town hall.

In fact, in no other country in the world has the amazing growth of the newspaper equalled that of the United States, where the ancient bell-ringer has been put completely out of business, for even the small towns now have their daily papers, and special mail trains carry the big metropolitan dailies into remote districts.

Advertisers have been quick to grasp the unique possibilities of the daily newspaper. No other medium serves their purpose quite so well—in bringing the advertising message into the homes without loss of time or effort.

This view amounts to a conviction with the manufacturers of Shinola Shoe Polish. In 1922, using newspapers exclusively in advertising their product, the sales of Shinola were the largest in the history of the business and the number of boxes sold the largest on record of any paste shoe polish in America.

Which explains why Shinola plans an advertising appropriation for 1923 larger than ever, and why this company's advertising efforts will be confined to daily newspapers.

MASONS HEAR PLEA FOR BOYS OF THE CITY

Judge Birdzell Voices Responsibility of All in City Movement

200 MASONS ARE PRESENT

Many Visitors From Out of City at Annual Event of Local Lodge

Quickening of interest by Masons in the movement for the welfare of the boys of the city and in support of our public schools was urged last night at the annual Past Masters' night banquet by Judge L. E. Birdzell and T. J. Taylor. More than 200 Masons were present.

Judge Birdzell, speaking particularly in behalf of the Fathers and Sons banquet to be given Friday night at 6:15 o'clock at the high school gymnasium, emphasized the responsibility of all toward the youth of the city. The job of the director of boys' welfare work he called "the biggest job in Bismarck" declaring it was the biggest job in Bismarck because the director was dealing with the most potent agency on the city's future.

The home can no longer be relied upon to supply all that is necessary in the direction of the boy's life. Judge Birdzell said, "Complex and strenuous conditions of modern day life often make it impossible for the father and mother to devote the time they should devote to molding the future of the boy."

"We cannot rely on the home life today as we once did," he said, "because the home life can't grip the boy as it once did."

Duty Toward Boys

He declared that Director MacLeod was able to prove that every boy between 14 and 18 years is practically a victim of circumstances in the community in which he lives. Men and women of the community must bear the responsibility, he said.

The Fathers and Sons banquet, he said, gives the adult the one opportunity during the year to get in immediate contact with the boys' welfare work. He urged each Mason to get in touch with a boy and to be present at the banquet Friday night "not because the boy ought to be there, but because you ought to be there."

Masonic Service Talk

E. J. Taylor talked upon the bulletin of the Masonic Service Association entitled "Our Public Schools." He said the big question in education today was how public schools may be made to function more efficiently.

"One real reason why schools do not function as efficiently as desired is the inference of the people," Mr. Taylor said. He said that while people had willingly taxed themselves for the public schools, few have given much thought to the schools. One-half of the peace-time taxes, he said, goes for educational purposes, indicating the solid support of the people for the schools. He urged all citizens to take an interest in the schools, the teachers, courses and teachers, courses and trends.

Americanism, he said, meant equality of opportunity, and such equality is gained through education.

Grand Master E. A. Ripley of Mandan was unable to be present here last night because of illness. A number of Mandan Masons, however, were here for the event.

The elaborate banquet was served in the dining room in the temple, following the first section. Master Mason degree work in the afternoon, and it was followed by work in the same degree.

Ladies of the Eastern Star, who served the splendid banquet, received the thanks of the Masons.

BROAD PLANS OUTLINED IN GARDEN DRIVE

Committees Named Formulate Plans for City-Wide Campaign

URGE BEAUTIFICATION

The first steps in a far-reaching program for beautifying and cleaning up Bismarck were considered at a meeting of an Association of Commerce committee headed by Mrs. P. R. Fields at the Association rooms last evening.

Chairmen of various committees to have charge of the Arbor day and preservation of native life campaign were named. Those appointed to direct the groups included: Speakers committee, Dr. Melvin R. Gilmore; School committee, Supt. H. O. Saxvik; Plant a Tree committee, George Will; Clean-up committee, J. T. MacLeod; Gardening and Park Improvement committee, Mrs. A. P. Lenhart; Publicity, Mrs. Florence Davis.

Reports were heard from an Association of Commerce committee on possible improvements in various parts of the city. The consensus of opinion as expressed in the reports indicated the necessity of cleaning up back yards in all parts of the city, the utilization of all vacant lots instead of allowing them to go to weeds and to serve as dumping grounds, suggested improvements in the back alleys of certain places of business, improved sanitation in certain sections of the city, and a general cleaning-up.

It was suggested at the meeting that the co-operation of the city commission and the health officer be obtained in the carrying out of certain improvements.

Many plans for planting trees in the city were discussed. As a step toward a city beautiful of the future, the planting of elm trees along the penitentiary driveway was brought up for consideration. Field declared that while the present generation might not have the privilege of enjoying a city with shades, drive-ways and parks with large trees, the younger generation would have this privilege if in this year a beginning were made in tree planting, and a comprehensive park program evolved.

As preparatory plans for the carrying out of a comprehensive program, the proper planting of one tree by every family in the city was suggested.

The children of the city are to be interested in native tree and plant life by means of speakers who will appear in the schools and present the subject of Arbor day. This will be followed by the writing of essays on subjects relating to native life in the city or state. Supt. Saxvik will select members of a committee today, to carry on the work with the school children.

Dr. Gilmore, who is in charge of the speakers committee, declared that his battalion would arouse the interest of the children in plant life and tell them something of the proper methods of planting trees and their care.

THE ELTINGE

Mary Pickford in her new "Tess of the Storm Country" will be seen at the Eltinge for three days only beginning today, Tuesday with the usual matinee at 2:30.

There is no doubt as to the wisdom and good judgment of Miss Pickford in selecting this triumph of the past as worthy material for the making of a still greater film.

She has written an important chapter into screen history in the manner in which she has produced this picture for a second time in her brilliant career and, if it is true she essayed this revival with the idea of creating a classic which would live in posterity, there is every indication she has insured herself adequate success in the ambition.

It is confidently predicted by most of the best versed critics that this 1922 model of "Tess of the Storm Country" is going to be a popular attraction for decades to come and that future generations are sure to cherish the memory of this great artist through her sterling histrionic work in this one production.

"Tess of the Storm Country" is a full length show in itself and starts promptly at 2:30 and 7:30 with two shows each night.

MISS LUND IS TO HEAD CHILD WELFARE WORK

Named to Direct Children's Code Commission Laws, By State Board

Miss Henrietta J. Lund, field representative of the American Red Cross, Central Division, since 1917, was appointed today by the Board of Administration as state child welfare worker, effective July 1.

The position was created by senate bill No. 172, enacted by the legislature last winter as a part of the Children's Code Commission program. The law provides for the appointment of a director whose chief duties shall be to secure the enforcement of child welfare laws for the protection of neglected, dependent, delinquent, illegitimate and defective children and those in need of the special care and guardianship to take the initiative in protecting and conserving the rights and interests of the children to inquire into such home and community environmental conditions as tend to create delinquency and neglect, to promote remedial or preventive measures to strengthen parental responsibility and stimulate wholesome community life. It also is a part of the duties of the director to license, supervise and regulate boarding places and hospitals which receive women.

Miss Lund received her training in the University of Minnesota, Associated Charities of Minneapolis and Russell Sage Foundation in New

York. She first entered social work in 1914. She has done relief work for the American Red Cross and the Northern Forest Fires Relief Commission, and has had charge of special Red Cross relief work in North Dakota and Montana.
